

Content

Ողջույնի խոսք: Սուրեն Հ. Օհանյան _____	6-8
Introduction. Suren H. Ohanyan _____	9-10
The frames of work of Pharmacy Department and Scientific theses of the students. Kristine E. Danielyan, Ruben L. Markosyan _____	11-12
Analytical comparison of the Ibuprofen tablets supplied from two different companies. Norvan A. Sumbat, Samvel G. Chailyan. _____	13-14
Application of HPLC method for the comparison of the tablets of analgen provided by two different companies. Alaa M. F. Al-Saeed , Samvel G. Chailyan _____	15-16
Comparison of the content of two tablets of Paracetanol produced by two different companies. Ahmed K. Ayad, Samvel G. Chailyan ____	16-17
Research of the main rules regarding pharmaceutical development of drug substance and drug product. Varduhi M. Ghazoyan, Abbas Al-Husseini _____	18
Research and evaluation of stability data of drug products in agreement with Armenian drug law-regulations. Varduhi M. Ghazoyan, Hussein N. Makki _____	19
Research and evaluation of the main storage conditions and shelf lives of drugs as a part of their regulation process. Varduhi M. Ghazoyan, Moamel R. Alrubaye. _____	20
Evaluation of nonclinical data for anticancer pharmaceuticals as a part of their regulation process. Varduhi M. Ghazoyan, Mustafa M. Majhool _____	21
The effect of solvent and pH on trypsin – polyphenolic compounds interaction. Ameer K. Jamal, Ali M. Qutaiba, Gohar A. Shahinyan _____	22-23
Comparison and analyses of two tablets of Aspirin produced by two different companies. Abdullah R. S. Al-naqeeb, Samvel G. Chaiyan _____	24-25

Stability Studies of Minoxidil Solution. Mujahed R. Ameen, Samvel G. Chailyan _____	26-27
Comparative analysis of Residual Quantities of Imidazole in Natural Honey. Mustafa Neamah, Samvel G. Chaiyan _____	28-29
Circulation kinetics of albumin micro- and nano-particles as drug carriers. Zahraa Majid, Kristine E. Danielyan. _____	30-31
Improvement of the biological particles stability in blood stream by chemical modifications. Maha A. Hussein, Kristine E. Danielyan _____	32-33
New purification method of tannic acid. Mohammed B. B. Luqman and Kristine E. Danielyan _____	33-34
Manufacturing process of Ibuprofen suspension: identification of risks and possible performance of the actions for establishment of the stability. Ahmed Aljaffal, Anna Maria Ayvazian Davidian _____	24-35
Description of the entire process of Sodium Diclofenac different pharmaceutical forms manufacturing processes from API synthesis till finished product. Demonstration through laboratory tests their advantages and differences regarding bioavailability. Asseel T.I. Al-Dabbagh, Ana Maria Ayvazian Davidian _____	37-37
Justification and demonstration through experimental test and literature, the main differances on coated and uncoated tablets. Mohammed K. Y. Al Hasani, Ana Maria Ayvazian Davidian _____	37-38
Antioxidant activity of Thymus Kotschyanus Boiss. & Hohen. Extracts and essential oil. Al-N. Aqeel, Narine A. Zakaryan, Vahagn S. Gevorgyan _____	39-44
Pharmaceutical analysis of Helichrisum Arenarium L. Ali Fadhil Al-Ojaimi, Arshaluys M. Ghazaryan _____	45-50
Pharmaceutical analysis of Leonurus Cardiaca L. Rami R. Obaid, Arshaluys. M Ghazaryan. _____	51-56
Pharmaceutical analysis of Linum Usitatissimum L. growing in Armenian flora. Ahmed Abdulsattar Raheem, Arshaluys M.	

Ghazaryan_____	57-62
Pharmaceutical analysis of Peucedanum Officinale L.	
Mohammed Adil, Arshaluys M Ghazaryan. _____	63-67
Pharmaceutical analysis of Hypericum Perforatum L.	
Mohammed J. Mohsin, Arshaluys M. Ghazaryan _____	68-72
Potential targeting of the stroke by means of the layered nano- and micro- particles. Hajir Sarmad Kamal Al-Chalabi, Alaa Fareed, Kristine E Danielyan, Neli Ohanyan, Arpi Manukyan, Samvel G. Chailyan _____	
	73-90
