

Cover to cover translation of the present IZVESTIYA is published by Allerton Press, Inc. New York, under the title

# *JOURNAL OF CONTEMPORARY MATHEMATICAL ANALYSIS*

(Armenian Academy of Sciences)

Below is the contents of a sample issue of the translation

Vol. 51, No. 1, 2016

## CONTENTS

|                                                                                                   |       |
|---------------------------------------------------------------------------------------------------|-------|
| G. KARAPETYAN, N. SARIBEKYAN, Spectral stability of higher order semi-elliptic operators.....     | 1     |
| V. N. MARGARYAN, Comparison of two-dimensional polynomials.....                                   | 11    |
| M. G. GRIGORYAN, K. A. NAVASARDYAN, On behavior of Fourier coefficients by Walsh system .....     | 21    |
| FENG LÜ, JUNFENG XU, Two results on the normality criterion concerning holomorphic functions..... | 34    |
| K. T. POUMAI, S. K. KAUSHIK, Frames and non linear approximations in Hilbert spaces .....         | 41—49 |

АЖ 418  
2016, 35, N2

Индекс 77735

# ИЗВЕСТИЯ НАН АРМЕНИИ: МАТЕМАТИКА

том 51, номер 2, 2016

## СОДЕРЖАНИЕ

|                                                                                                                                                                          |       |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| Г. Г. ГЕВОРКЯН, К. А. КЕРЯН. Об одной системе кусочно<br>линейных функций с нулевыми интегралами на $R$ .....                                                            | 3     |
| А. М. ДЖРБАШЯН, ДЖ. Э. РЕСТРЕПО. О некоторых классах<br>гармонических функций с неотрицательными гармоническими<br>мажорантами в полуплоскости .....                     | 17    |
| В. Н. МАРГАРЯН, Г. Г. ТОНОЯН. О сравнении с весом<br>двумерных многочленов .....                                                                                         | 32    |
| B. FATHI-VAJARGAN AND S. GHASEMALIPOUR. Simulation of a<br>random fuzzy queuing system with multiple servers .....                                                       | 42    |
| G. TEPINADZE. On the convergence of Fejer means<br>of Walsh-Fourier series in the space $H_p$ .....                                                                      | 54    |
| L. YANG, YU. ZHANG, SH. YUAN, H. SHI. Existence theorems of<br>periodic solutions for second-order difference equations containing<br>both advance and retardation ..... | 71-84 |
