

Cover-to-cover translation of the present IZVESTIYA is published by Allerton Press, Inc. New York, under the title

# *JOURNAL OF CONTEMPORARY MATHEMATICAL ANALYSIS*

(Armenian Academy of Sciences)

Below is the contents of a sample issue of the translation

Vol. 52, No. 1, 2017

## CONTENTS

|                                                                                                                                                                                   |         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| V. K. CHAUBEY, A. MISHRA, Hypersurfaces of a Finsler space with a special $(\alpha, \beta)$ -metric .....                                                                         | 1       |
| H. R. MARASI, H. AFSHARI, M. DANESHBASTAM, C. B. ZHAI, Fixed points of mixed monotone operators for existence and uniqueness of nonlinear fractional differential equations ..... | 8       |
| A. BACH, H. ZESSIN, The particle structure of the quantum mechanical Bose and Fermi gas .....                                                                                     | 14      |
| S. A. BONDAREV, V. G. KROTOV, Fine properties of functions from Hajłasz–Sobolev classes $M_\alpha^p$ , $p > 0$ , II. Lusin’s approximation .....                                  | 30      |
| G. G. GEVORKYAN, K. A. KERYAN, On local equivalence of the majorant of partial sums and Paley function of Franklin series .....                                                   | 38      |
| XH. Z. KRASNIQI, On $L^p$ -integrability of a special double sine series formed by its blocks .....                                                                               | 48      |
| I. LAHIRI, B. PAL, Brück conjecture for a linear differential polynomial .....                                                                                                    | 54 – 60 |

## ИЗВЕСТИЯ НАН АРМЕНИИ: МАТЕМАТИКА

том 52, номер 2, 2017

## СОДЕРЖАНИЕ

|                                                                                                                                         |         |
|-----------------------------------------------------------------------------------------------------------------------------------------|---------|
| A. BANERJEE, S. MAJUMDER, B. CHAKRABORTY, Further results on uniqueness of derivatives of meromorphic functions sharing three sets..... | 3       |
| M. A. HASANKHANI FARD, The Casazza-Tremain Conjecture in the infinite dimensional Hilbert spaces .....                                  | 20      |
| К. А. КЕРЯН, Теорема единственности для рядов Франклина .....                                                                           | 26      |
| P. SAHOO AND H. KARMAKAR, Results on uniqueness of entire functions whose difference polynomials share a polynomial.....                | 39      |
| N. TAGHIZADEH, V. S. MOHAMMADI, Dirichlet and Neumann problems for Poisson equation in half lens .....                                  | 53      |
| Р. А. ХАЧАТРЯН, О регулярных касательных конусах.....                                                                                   | 65      |
| В. Г. БАРДАХЧЯН, Р. А. ГЕВОРКЯН, Нечеткая оценка наименьших квадратов по выпуклым оболочкам $\alpha$ -уровней.....                      | 78 – 84 |

## IZVESTIYA NAN ARMENII: MATEMATIKA

Vol. 52, No. 2, 2017

## CONTENTS

|                                                                                                                                         |         |
