

PAPER INDEX

- Aghababian E. Yu., Harutyunian L. S., Mnatsakanian V. A., Gach-Baltz E., Radich L.* — Verbascoside from *Verbascum Georgicum* Benth 11—709
- Aghababian R. G., Khrlmian A. P., Badanian Sh. O.* — Reactions of Unsaturated Compounds. CXXIII. Routes of Isomeric Allenic and Acetylenic Aminoalcohol Formation during the Reaction of Enynols with Secondary Amines 6—364
- Aghajanian Ts. Ye., Minassian H. G.* — Ring Opening of 1,3,5,7-Tetraazabicyclo[3,3,1]nonanes with Alkylhalogens 4—274
- Agheklan A. A., Pirjanov L. Sh., Markarian E. A.* — Arylalkylamine Derivatives. XXII. Synthesis of 2-[1'-(3,4-Dimethoxyphenyl)-1-cycloalkane]-ethylamines 11—692
- Amian A. V., Yedigarian A. A.* — A Study of Plastic Bounded Cadmium Electrodes in Cadmium—Nickel Storage Batteries 4—270
- Arakellian E. A., Hajibekian A. S., Minassian S. A., Markarian E. A., Kal-drikian A. A., Vlasenko E. A.* — Derivatives of Phenolic Acids. XXXV, Synthesis and Pharmacological Properties of Amino Esters of 2,4- and 3,4-Dihydroxybenzoic Acids 11—731
- Arutyunian V. S., Kochiklan T. V., Kovalyov G. V., Bugayeva L. I.* — Synthesis and Pharmacological Investigations of γ -Hydroxycarboxylic Acid Hydrazides 8—523
- Arutyunian V. S., Kochiklan T. V., Kovalyev G. V., Bugaeva L. I., Antadze M. G.* — Investigations in the Field of Keto Lactones and Keto Acids. XII. Synthesis and Preliminary Results of Biological Studies of New Mercaptotriazolyl γ -Lactones 11—688
- Avetian M. H., Ghazarian A. V., Matsoyan S. G.* — Synthesis of N-(β -Chloroethyl)Aldimines and Ketimines 10—658
- Avetissian A. A., Galstian A. W., Meliklan S. G.* — Investigations in the Field of Unsaturated Lactones. Synthesis of Lactones Containing Pyrimidine Rings 11—718
- Avetissian A. A., Kagramanian A. A., Meliklan G. S.* — Methods of Synthesis of Δ^3 -Butanolides 5—335
- Babayan A. T., Chukhajian E. O., Shakhatury C. G., Lindeman S. V., Struchkov Yu. T.* — Investigations in the Field of Amines and Ammonium Compounds. CLXXXIII. Base-Catalyzed Intramolecular Cyclization of Dialkyl(3-Phenylpropargyl)(3- α -Naphthylpropargyl)Ammonium Salts 1—44
- Babayan K. N., Avakian L. S., Karapetian R. G., Chukhajian G. A.* — Dehalogenation of Organic Halides in Presence of Interphase Transfer Catalysts. IV. Dehalogenation of Styrene and Ethylene Halides 3—201
- Baghdassarian G. B., Sheyranian M. A., Injiklan M. H.* — Interaction of Dichloromethylalkyl Ethers with Ethyl Orthoformate 10—657
- Chaltiklan M. T., Lazarev E. H., Gharibian T. A., Gazarian K. G., Allev R. K.* — Coking of Catalysts During the Decomposition of di-*tert*-Butyl Peroxide 10—665
- Chaltiklan R. H., Safarian G. E., Beylerian N. M., Ter-Minassian L. Ye.* — The Influence of Nitroxyl Free Stable Radicals on the Decomposition Rate of Azoisobutyronitrile Induced by Photo and Laser Radiation in Solutions 10—619
- Chaltiklan R. H., Safarian G. E., Beylerian N. M.* — The Decomposition Kinetics of Azoisobutyl Acid Dinitrile under the Action of Photoirradiation and Laser Radiation 11—729
- Chlian G. S., Arakellian K. H., Baghdassarian A. B., Durgarian A. H.* — Investigation of Gold Absorption Possibilities with Polyacrylonitrile from Ore Concentrates 11—730

VII Conferenc Chemical Acetylene (22—24 octember, 1984, Yerevan)	1—65
<i>Dalatian N. Ya., Abgarian G. V., Mamian V. A., Paronian R. V.</i> — Analysis of Reaction Mixtures of Ethyldenediacetate Formation on the Basis of Acetic Anhydride by Gas Chromatography	10—641
<i>Danghian T. M., Aliev R. K., Nalbandian A. B.</i> — Isotopic Exchange of Methane by —OD Groups on Platinum-Alumina Catalyst Surfaces . .	6—343
<i>Dingchian A. E., Manukian A. L., Sarkislian A. Ts., Matevoslian R. H.</i> — The Action of 2,2,6,6-Tetramethyl-4-oxypiperidine-1-oxyl Radicals on the Electric, Dielectric, Elastic—Viscous, and Electrooptical Properties of <i>p</i> -Methoxybenzylidene- <i>p'</i> - <i>n</i> -butylaniline Liquid Crystals	9—537
<i>Galoyan A. M., Grigorian J. V., Cherkezian A. H., Babayan A. T.</i> — Investigations in the Field of Amines and Ammonium Compounds. CLXXXVIII. Synthesis of Imines by the Interaction of Potential Allylenammonium Salts with Primary Amines	6—382
<i>Gasparian L. A., Manukian T. K.</i> — Formation of 4-Chloro-1,2-butadiene from 2-Chloro-1,3-butadiene	7—461
<i>Gasparian L. A., Manukian T. K., Malkhassian A. Ts., Martiroslian G. T.</i> — Preferential Formation of 1-Chloro-1,3-butadiene During the Photolysis of 3,4-Dichloro-1-butene in Gas Phase	7—459
<i>Ghukassian A. V., Harutyunian G. S., Manukian G. A., Oganessian A. A.</i> — Changes in Emulsion Sability During the Emulsion Polymerization of Styrene	8—525
