

ACADEMICIAN

KHACHIK SAAK BAGHDASAROV

CURRICULUM VITAE

Khachik Saak Baghdasarov is the Head of department of high-temperature crystallization of Institute of Crystallization after A.V.Shubnikov of the Russian Academy of Sciences, the corresponding member of the Russian Academy of Sciences, academician of Academy of engineering sciences, the honored worker of a science and techniques, twice Winner of the State award, doctor of physico-mathematical sciences, professor.

The main scientific books

1. Х.С.Багдасаров “Высокотемпературная кристаллизация из расплава”. – М.: ФИЗМАТЛИТ, 2004. – 160 с. – ISBN 5-9221-0482-9. (Kh.S.Bagdasarov ”High-temperature crystallization from the melt”)
2. Х.С.Багдасаров, Л.А.Горяинов “Тепло- и массоперенос при выращивании монокристаллов направленной кристаллизацией”. – М.: ФИЗМАТЛИТ, 2007. – 224 с. – ISBN 978-5-9221-0806-5. (“Warmth-mass carrying by crystal growth”).
