

ACADEMICIAN

LUSEGEN ARMENAK BUGAEV

CURRICULUM VITAE

Head of Department of Theoretical and Computational Physics, Physical Faculty of Southern Federal University (former Rostov State University), Professor, Doctor of Science.
Foreign member of the National Academy of Sciences of the Republic of Armenia.

Address: Physical Faculty of Southern Federal University, Zorge str., 5, Rostov-on-Don,
344090, Russia

Office Telephone: +7 863 297 53 36 and +7 863 223 72 75

Fax: +7 863 297 51 20

E-mail: bugaev@sfedu.ru

Home address: Teatralnii Avenue, 40, apt. 69, Rostov-on-Don, 344019, Russia

Personal History:

Born - September 22, 1952, Rostov-on-Don, SU

Married, 1 Child

Education:

Scientific Title: Professor of Theoretical and Computational Physics, Ministry of Education, Moscow, Russia, 1999

Doctor of Science (Condensed Matter Physics) – St. Petersburg State University, St. Petersburg, Russia, 1992

Ph.D (Condensed Matter Physics) – Rostov State University, Rostov-on-Don, SU, 1982

A.B. (Physics, X-ray Spectroscopy) – Rostov University, Rostov-on-Don, SU, 1975

Professional History:

Head of Department of Theoretical and Computational Physics, Physical Faculty of Southern Federal University (former Rostov State University), 2007 - present

Professor at Physical Faculty, Rostov State University, 1993- 2007

Senior Research Scientist at Institute of Physics, Rostov State University, 1983-1993

Junior Research Scientist at Institute of Physics, Rostov State University, 1975-1983

Research Interests and Experience

X-Ray Absorption (XAS) Spectroscopy. Photoelectron Spectroscopy.

Condensed Matter Physics. Computational Physics.

Professional Activities, Awards

Member of Specialized Council (Condensed Matter Physics) for considering theses on degree - Doctor of Science, 1994 – present.

Member of International XAS-Society.

Grant of the program “Russian Universities-Fundamental Researches”, 1998-2000

Grant of the Russian Foundation for Basic Research (RFBR), 1996-7 and 2001-2004

Grant of the Russian Ministry of Education and Science “Development of High School Scientific Potential” 2006-2010

Grant of the University P&M Curie, Paris 7, 36MCF0227, 1997

University Activities

Member of Physical Faculty Council at Rostov State University, 1994 – present

Courses Taught

Quantum theory, Computational Methods in Condensed Matter Physics, Methods of materials structure determination, Nonrelativistic Scattering Theory.

Ph.D Thesis Supervision

1. Levin I.G., 1988, “Multiple-scattering effects and the problem of electron potential choice in XAFS-theory of solids”.
2. Alekseenko I.B., 1997, “Ab initio calculation of crystals EXAFS and its role in the determination of atoms displacements in ABO_3 compounds”.
3. Sokolenko A.P., 2001, “Determination of local atomic structure parameters in crystalline minerals, consisting of low-Z atoms, using their XANES spectra”.
4. Zhuchkov K.N., 2002, “Determination of small displacements of atoms from the ideal positions in perovskite type crystals by EXAFS”.
5. Rusakova E.B., 2004, “Coordination environment of Ti in glasses and radiation-damaged compounds determined via the Fourier-transform analysis of Ti K-XANES”.
6. Latokha Ya.V., 2005, “Investigation of metal-atoms coordination in zeolites and silicate glasses by the Fourier-transform K-edge XANES analysis”.
7. Avakyan L.A., 2009, “Fourier-analysis of energy restricted X-ray absorption spectra in local atomic structure determination for amorphous and disordered compounds”.

Total number of publications – 121; among them, selected publications are:

1. L.A. Bugaev, J.A. van Bokhoven, V.V. Khrapko, L.A. Avakyan, J.V. Latokha
“Effect of Aluminum on the Local Structure of Silicon in Zeolites as Studied by

Si K edge XANES: Spectra Simulation with a non-MT Atomic Background"
J. Phys. Chem. B, 2009
