

SUBJECT INDEX

Volume XXXIX, 1986

Acetylcholine. Fermentative Inactivation in Different Topographical Zones of the Stomach and Duodenum	6-529
Acetylcholine. Influence on the Renal Secretory Function in Case of Injection Into the Suprachiasmatic Nucleus of Hypothalamus	2-157
Acid Gibberellic. Cytogenetic Effect on the Meiose in the Tomato Plants (<i>M₁</i>)	5-370
Acid Gibberellic. Influence on the Mutagenesis and UV-Sensitivity of Microorganisms	4-284
Acid Gibberellic. Perspectives of Application in Agriculture	10-878
Acid N-Acetylphenamine. Dynamics of Chickens Intact and Regenerating Liver during Feeding with Bentonite	2-177
Acids Non-Etherized Fatty. Change of Content during Myocardium	5-441
Acids Nucleic. Model Study of Structure Peculiarities in Solutions of Polyacetyleneglycole	4-303
Acids of Humus. Use of Monoethanolamine for the Extraction from Soil	11-947
Actinomycin. Cytogenetic Effect of Actinomycin-D on the Root Cells of <i>Crepis capillaris</i>	4-348
Actinomycin. Effect on Differential Pairing of Human Chromosomes	5-377
Actomyosin. Peculiarities of Functioning under Various Ionic Strengths of Medium	3-195
Aer-soles of Medical Substances. Influence on Hematological Indices of Lambs	5-451
Alfalfa. Obtaining of Nitrogen-Fixing Associations of Callus with Specific Nodule Bacteria	4-289
Algorithm of the Expression of Organ Affections. Use during Model Investigations of Lactate Dehydrogenase Level in the Blood Serum	9-758
Alleles Multiple of Locus S. Study in the Process of Appearing and Development of Selfcompatibility	3-227
Amenorea. Clinico-Cytogenetic Diagnosis of Mosaic Anomalies of Karyotype	2-151
Amines Biogenic. Fermentative Inactivation in Different Topographic Zones of the Stomach and Duodenum	6-529
Aminouracil. Modifying Effect on Radiation-Induced Chromosome Aberrations in the <i>Cr. capillaris</i> L. Cells	2-163
Amino Acids. Desamination of L- and D- Amino Acids in the Liver, Kidneys and Brain of Frogs	2-176
Amino Acids. Mechanism of Blood Serum Inhibitor Action on the Deamination Processes in the Renal Cortex	11-959
Amino Acids. Tendencies in the Development of Modern Methods of Analysis	7-555
Amino Acids Branched. Isoenzyme Spectrum of Transaminase in the Process of Growth of Yeasts of <i>Candida</i> Genus	4-244
Amino Acids Branched, Valine. Influence of the Ammonium Salts on the Assimilation of D-Isomer by Yeasts <i>Candida guilliermondii</i> BKM-1-52	4-337
Amino Acids G-Terminal of Proteolipids Protein. Study in the Brain and Some Other Organs of Rat	9-787

Amino Acids, Mixtures Razemic. On the Destruction Condition of D-Isomers by D-Amino Acid Oxidase	7— 633
Ammonia, Peculiarities of Formation in the Brain Big Hemispheres of Birds during Different Age Periods under the Action of Prolonged Light Exposition	5— 399
Ammonifiers. Spreading and Species Composition in the Water and Soils of the Lake Sevan	4— 358
Amygdaloid of Rats. Change of Water and Food Demand after the Destruction of Medial Nuclei	12—1013
Anaesthetics, Ketamine. Influence on the Excitability and Antigradient Outcome of Sodium Ions from the Cells	10— 910
Anaesthetics Local. Physico-Chemical Mechanism of Benzokain Action on Electromechanical Stability of Bilayer Phospholipid Membranes	3— 241
Analysis Discriminant. Use during Cross-Longitudinal Investigation of Growth Processes of Children	9— 752
Analysis Factor. Application with the Purpose of Classification	9— 793
Analysis Factor. Use in the Investigation of Growth Processes in Girls of Peripubertate Stage of Development	1— 82
Analysis Regressive. Use during Estimation of Comparative Cytogenetic Effect of Monoethanolamine and Triethanolamine	5— 422
Analysis Spectral Digital. Organization in Systems of Physiological Experiment Automatization	9— 747
Animals of the Caucasian Brown Breed. Types of Transferrin, Haemoglobin, Cerruloplasmin and Amylase	11— 961
Animals Sounded. Role of Nociceptive Emotion in Hypoxic Sensitivity and Stability	3— 265
Animals Ungulate Wild, Goat Bezoar. Anaerobic Infections under Conditions of Captivity and Morphological Characteristics of Parenchymatous Organs	4— 322
Animals Ungulate Wild, Moufflon. Anaerobic Infections under Conditions of Captivity and Morphological Characteristics of Parenchymatous Organs	4— 522
Antibiotics. Sensitivity of Fical Streptococcus	6—526
Antibiotics, Kanamycin. Influence on the Development of Immune and Infectious Processes in the Organism	10— 895
Apple. Influence of Retardants on the Physiological-Biological Indices of Twigs and Leaves	1— 88
Apple—Tree. Anatomical Structure of Roots Wood of the Bent Sprouts . . .	2— 182
Apple—Tree. Influence of Retardants on the Growth and Fruit-Bearing of Juvenile Trees	3— 264
Apple—Tree. Significance of the Teleomorph of the Apple Powdery Mildew for the Primary Infection	7— 585
Apricot. On the Nitrogen Combinations in the Pollen of Several Varieties .	1— 86
Arginase. Effect of o-Phenanthroline Metalcomplexes on the Activity of Liver Isoforms	5— 389
Arginase. Induction in Less-Eyelashed Infusoria	2— 165
Arginase. Influence of the Neurohormone K in the Liver of Rats	9— 798
Arginase. Kinetic Properties of Less-Eyelashed Infusoria Arginase Isoenzymes	3— 262
Arginase. Photooxidation and Chemical Modification of Histidine and Triptophane Residua in the Purified Enzyme of Hen Embryoes	6— 502
Arginase of Yeasts. Determination of Number of SH-Groups and Histidine Residua	4— 310
Arginase of Yeasts and Liver. Comparative Investigation of Some Properties	4—314
Asparaginase of Yeasts <i>Candida guilliermondii</i> BKM-Y-42. Dependence of Activity on the Concentrations of Nitrogen Sources and Glucose . . .	11— 923

Asthma Bronchial. Dynamics of Some Cytochemical Indices in Children . .	1-- 90
Atropine. Secretory Functions of Kidneys during the Injection into the Supraoptical Nucleus of Hypothalamus	8-- 724
<i>Aerobacter</i> . Influence of Agar on Nitrogenfixing Activity	6-- 507
Bacilli Entomopathogeneous, <i>B. thuringiensis</i> . Ecology and Characteristics of Strains of the Serotype 14	4-- 332
Bacilli Entomopathogeneous, <i>Bacillus thuringiensis</i> subsp. <i>dendrolimus</i> . Ecological and Serological Characteristics of the Strains	4-- 275
Bacteria <i>E. coli</i> . Dependence of Cells Phenotype on the Efficiency of Genes of the Phage—Transposone D3112 <i>Pseudomonas aeruginosa</i> . .	10-- 570
Bacteria <i>E. coli</i> . Influence of Mutations of Rifampicin Resistance on the Activity of the Uridine Phosphorylase Gene in Dependence on the Allele Condition of the Gene <i>crp</i>	2-- 133
Bacteria <i>E. coli</i> K-12. Combined Effect of Laser and Ionizing Radiations on the Survival of the Cells of Radiosensitive <i>Pol AI⁻</i> Mutant . . .	3-- 200
Bacteria <i>E. coli</i> K-12. Suppressing of Oversynthesis of Capsular Polysaccharides by Phage Resistant Mutants in <i>lon⁻</i> Strains	10-- 864
Bacteria Entomopathogeneous. Microflora of Insects and Soil	4-- 335
Bacteria Nodule. Effect of Different Doses of Inoculate on the Efficiency of Symbios of 'Polyploid' Forms with Alfalfa	7-- 634
Bacteria Nodule. Obtaining of Nitrogen—Fixing Associations of Alfalfa Calulus with Specific Strains	4-- 289
Bacteria of Lactic Acid. Bacterial Yeasting for Pickled Cheese with a Shorter Ripening Period	1-- 58
Bacteria of Lactic Acid. Experimental Selection for the Isolation of Antibiotically Active Strains	6-- 523
Bacteria <i>Serratia marcescens</i> . Phosphate Potential and Stechiometry of H ⁺ —Pump and K ⁺ —Pump	4-- 325
Bacteria <i>Serratia marcescens</i> . Specificities of K ⁺ Accumulation	3-- 217
Barley. On the Number of Initial Cells in Seeds	1-- 69
Barley Wild Doubleline <i>Hordeum spontaneum</i> C. Koch. New Data of Armenian Genofond	1-- 64
Barley Wild, <i>Hordeum spontaneum</i> C. Koch. Quantitative Analysis of Phenotypic Signs under Conditions of Armenia	4-- 340
Bee. Set-Up of Microfamilies and Gamma—Irradiation during Varroaosis . .	3-- 262
Beta—Fructofuranosidase Synthesis in <i>Aureobasidium pullulans</i> in Dependence on the Sowing Material Age	4-- 259
Biodestruction of Glass. Use of Plastidized Organic Glass	2-- 184
Biology Cosmic. Effect of Cosmic Flight Factors on the Muscle System . .	3-- 191
Biotechnology of Plants. Problems and Perspectives	10-- 834
Bird. Peculiarities of Ammoniaforming Function of the Brain Big Hemispheres during Different Age Periods under the Action of Prolonged Light Exposition	5-- 398
Bird Domestic. Dynamics of Glycoproteids and N—Acetylneuramine Acid of Chickens Intact and Regenerating Liver during Feeding with Bentonite	2-- 177
Bird Domestic, Ducks. Influence of Ultraviolet Radiation of Eggs on the Economically Effective Indices and High Nervous Activity in Ontogenesis	7-- 602
Bird Domestic, Hens. Malate Dehydrogenase Activity in Ontogenesis . .	6-- 492
Bird Domestic, Hens. Photooxidation and Chemical Modification of Histidine and Triphosphate Residua in Liver Arginase of Embryoes . . .	6-- 502
Bloodcarrying Microcirculatory Flow. Morpho—Functional State under the Influence of Pituitrin	1-- 54

Bovine. Embryotransfer in Armenia	11— 929
Brain. Analysis of Evoked Potentials of Amygdaloid Cortico—Medial Nucleus to Viscero—Somatic Stimulation	1— 45
Brain. Exogenous Cyclic Nucleotides	9— 781
Brain. Mechanisms of Systemic Arterial Pressure Change during Low— and High—Frequency Stimulation of the Limbic Cortex Various Structures	11— 917
Brain. Memory and the Deep Structures	1— 73
Brionia, <i>Brionia alba</i> . Action of the Components of Roots during Chronic Staphylococcal Infection in White Mice	7— 618
Bruchopneumonia. Reamination Enzymes in the Diagnostics and Estimation of the Treatment	4— 354
Carboxihaemoglobin. Content in Various Parts of Bloodcarrying System during Acute Intoxications by Carbon Oxide	7— 634
Carboxihaemoglobin. Spectrophotometric Determination in the Spots of Dry Blood	1— 80
Catabolism of Arginine. Arginine—Glycine Transamidation in Various Biological Objects	9— 803
Cerebrosides Exogenous. Effect on the Content of Adenine Nucleotides in the Blood Erythrocytes	5— 393
Cheese Manufacture. Bacterial Yeasting for Pickled Cheese with a Shorter Ripening Period	1— 58
Cheese Pickled. Bacterial Yeasting, Shortening the Process of Ripening	1— 58
Chromatin. Quantitative Alterations in Rat Liver under the Influence of Hydrocortisone	3— 252
Chromosomes Human. Effect of Actinomycin—D on Differential Pairing	5— 377
Chromosomes of Animals. Influence of Tslanurate Melamine	5— 381
Cochineal Ararat (<i>Homoptera, Coccinea</i>). Nondiapause Development of Eggs and Various Quality of Females	11— 961
Cochineal Ararat, <i>Porphyrophora Brandt</i> (<i>Homoptera, Coccinea</i>). Morphofunctional Changes in Male Sexual Organs	11— 966
Cochineal Araratian. Nutrition Demands	1— 82
Cochineal Araratian (<i>Homoptera, Coccinea</i>). Development of Eggs without Diapause and Heterogeneity of Females According to this Sign	8— 713
Colibacteriosis. Allergic Method of Diagnosis of Rabbits	6— 527
Combinations Chelate. Antitumour Activity of [Ni, Pd, Cu]	3— 260
Conifers. Vegetative Reproduction	7— 563
Creatine Phosphokinase. α -Tocopherol Effect in Combination with Sodium Nucleinate during Experimental Myocardial Infarction	3— 256
Crystals of Proteins. Measuring of Viscoelastic Properties in Low Temperatures	3— 203
Cucurbitacines. Influence of Dihydrocucurbitacin D Diglucose on the Lipid Peroxidation in Rat Liver Microsomes during Stress	4— 351
Diazoacetylbutane. Effect on Wheat	5— 417
Dichlorbutene. Action on the White Rats Chromosome Apparatus during Peroxide Administration	5— 415
Dichlorbutene. Immunomorphological Change in Lymphoid Organs of Rats after Intoxication	6— 537
Dichlorbutene. Influence of Food Rations on Some Sides of Nitrogen Exchange during Experimental Chronic Intoxication	3— 254
Dichlorbutene—1. Indices of Lipid Metabolism during Intoxication in Dependence on the Structure of Food Ration	8— 718
Doublewinged, Horse—Flies (<i>Diptera, Tabanidae</i>). Construct for the Catching of Larvae	7— 620
Dye—Stuffs Food. Effect of Seeds Presowing Treatment on Physiological—Biochemical Characteristics of Wheat Sprouts	1— 39

Echinoecoccus Multiple. Study in the Lungs and Heart	9— 813
Eggs Quail. Efficiency of Ultraviolet Radiation Use during Incubation . .	1— 76
Eglopsis, <i>Aeglops cylindrica</i> Host. Quantitative Analysis of Phenotypic Signs under Conditions of Armenia	1— 349
Electrolytes. Content in Blood Serum and Cardiac Tissues of Young Pigs .	2— 155
Eleuterococcus. Antioxidant Properties	7— 593
Embryotransfer. Introduction of the Method in Armenia	11— 929
Emmers or Doublecorns New. Synthesis	1— 5
Enterobacteria, <i>Enterobacteriaceae</i> . Phenotypic Manifestations of Pathogenicity Plasmids in Some Representatives	4— 333
Erythrocytes. Change in Direction of H^+ Transport under the Influence of Ca^{+2}	3— 212
Erythrocytes Human. Influence of Calcium Ions in the Kinetics of Osmotic Hemolysis	3— 243
Erythropoiesis. Changes under the Influence of Hypothalamus Preoptic Zone Evolution of Palearctic Horse—Flies (<i>Diptera</i> , <i>Tabanidae</i>). Ecological Peculiarities	5— 419
Exchange $K^+—H^+$ in Bacteria. Stechiometry in <i>S. marcescens</i>	8— 705
Eye. Hydromechanical Model of Eye Fixing and Movements	4— 325
Jalko Tinnuntius L. Common. On the Unusual Nesting	2— 105
Falseshield Plum, <i>Sphaerolecanium prunastri</i> (Fouse.). Some Data on the Biology	8— 715
Falseshield Zoned, <i>Didesmococcus unifasciatus</i> (Arch.). Effect of the Use of Various Insecticides	11— 997
Fauna Fossil. Hunting and Animal Breeding of Urartians	7— 635
Fauna of Armenia. Genus <i>Piinus</i> L. (<i>Coleoptera</i> , <i>Pitridae</i>)	8— 664
Fauna of Armenia. New Data on Pteromalides (<i>Hymenoptera</i> , <i>Pteromalidae</i>) .	6— 512
Fauna of Armenia. On the Disappeared and Remaining Species of Spelcofauna	7— 576
Fauna of Armenia. Species Composition and Daily Activity of Reptiles of Khosrov Reserve	7— 567
Fertilizers Mineral. Influence of Long Use on the Chemical Composition and Productivity of Natural Haymaking	7— 572
Fish of Armenia. Perspectives of Trade Growth of the Lena (Siberian) Sturgeons under Conditions of Armenia	9— 814
Fishes of Armenia. On the Role of Khramulja in the Ecosystem of the Lake Sevan	12— 1009
Flora Fossil. Remnants of Wooden Wares from Excavations of the ArmSSR Oshakan Village	6— 514
Flora of Armenia. Analysis of Bazum and Halab Mountain Ridges	11— 979
Flora of Armenia. Botanical—Geographical Analysis of Armenian Species of the Genus <i>Scrophularia</i> L. (<i>Scrophulariaceae</i>)	1— 27
Flora of Armenia. Floristical Findings from the Erebuni Reserve	2— 170
Flora of Armenia. New and Rare Species of the Family <i>Orchidaceae</i> . . .	6— 518
Flora of Armenia. New Data around the Genus <i>Astragalus</i> L.	7— 607
Flora of Armenia. New Endemic Species <i>Merendera mirzoevae</i> (<i>Liliaceae</i>) .	7— 610
Flora of Armenia. New Species of the Gegham Volcanic Massive	7— 581
Flora of Armenia. Rare Plant Species from the Khosrov State Reserve . .	7— 616
Flora of Armenia. Rare Species and Phytocenoses of the Girdzor River Plain	7— 612
Flora of Lactic Acids Bacteria of the USSR. On the Transfer of <i>Streptococcus</i> Bovis Orla—Jensen and Relative Species into the <i>Viridococcus</i> gen. nov. Genus in Connection with the Inventarization	7— 614
Foot—and—Mouth Disease. Immunoprophylactics of Pigs	9— 806
Foot—and—Mouth Disease. Preservation of the Virus on Highmountainous Pastures	11— 989

Forestry of Armenia. Multilaimed Use of Bare Mountain Slopes	2— 183
Fractures Closed of Thigh—Bone. Immunotherapy during Complex Treatment in Experiment	8— 685
Frog Lake. Ecological Peculiarities of Premountainous and Mountainous Populations	8— 680
Fruits of Apple. Dependence of Softness on the Firmness of Pulp and Content of Alcoholinsoluble Substances	5— 450
Fruits of Apple—Tree. Change of Electrical Impedance during Their Ripening on the Tree	6— 539
Fungi Powdery Mildew, <i>Podosphaera leucotricha</i> (Ellis et Everhart) Salm. Significance of the Teleomorph for the Primary Infection	7— 585
Fungi Thermophilic, <i>Humicola grisea</i> , <i>H. lanuginosa</i> , <i>Opitrichum</i> Species. Destruction of Rubberotechnical Material	10— 913
Fungicides (Ridomil, Benlate, Phodrel). Mutagenic Effect on the Sprouts <i>Adiantum cepa</i> L.	5— 434
Fungus <i>Ascreobasidium pullulans</i> . Synthesis of Beta—Fructofuranosidase in Dependence on the Sowing Material Age	4— 249
Fungus <i>Blumeria Golovin ex Speg.</i> (Fam. Erysiphaceae). Distribution and the Host—Plants Range in the Armenian SSR	2— 173
Fungus Cap <i>Nematoloma fasciculare</i> (Huds. Fr.) Karst	4— 319
Fungus Mouldy <i>Aspergillus niger</i> R—T. Effect of Thiol Reagents on the Activity of D—Amino Acid Oxidases	5— 373
Fungus Yeastlike <i>Ascreobasidium pullulans</i> . Biosynthesis of Beta—Fructofuranosidase, Protein, Pigment and Pullulan in the Process of Cultivation in Media with Various Sources of Nitrogen	4— 359
Gamma—Irradiation Presowing. Influence on the Growth and Fertility of Melon	12— 1018
Genes Mobile. On the Necessity of the Methods of Artificial Inducing with the Help of Exogeneous Factors	10— 847
Glands Parathyroid. Comparative Characteristics of the Parameters of FAD— and NAD—Dependent Respiration in the Liver and Brain Mitochondria of the Rats during Hypofunction	3— 249
Glands Parathyroid. Content of ATP and ATP-ase Activity in the Liver and Brain of Rats during Hypofunction	1— 91
Glycoproteids. Dynamics. Dynamics of Chickens Intact and Regenerating Liver during Feeding with Bentonite	2— 177
Goosefoot Plant, <i>Chenopodium rubrum</i> L. Effect of Extracts Obtained from Leaves of Henna Unprickled (<i>Lawsonia inermis</i> L.) on the Blooming of Sprouts under Conditions of Open Hydroponics	5— 367
Grape. Amino Acids and Proteins in Vegetative Organs of Hybrids According to Phases of Vegetation	4— 356
Grape. Change of Electroconductivity of the Tissues in the Sorts with Different Frost—Resistance	2— 180
Grape. Change of Impedance in Low Negative Temperatures	3— 235
Grape. Influence of Physiologically Active Combinations on the Root—king of Hardly—Rootstaking Sorts	4— 356
Grape. Inheritance of Mildew—Resistance of Intraspecies Hybrids Depending on the Selection of the Crossing Pairs	1— 71
Grape. On the Stability of Colour of Wines, Made from New Frost—Resistant Varieties	1— 87
Grape. Protein and Amino Acid Content Change in New Varieties During Hardening and Hibernation	2— 179
Grapholita Molesta Busck. Protein Fractions in the Postembryonal Stages of Development	11— 970
Green Planting of Cities. Perspective Assortment for Kirovakan	8— 727

Hard-Winged, Buprestid-Beetles (<i>Coleoptera, Buprestidae</i>). Reproductive Organs of Females	8- 573
Haymaking Natural, Influence of Long Use of Mineral Fertilizers on the Productivity and Chemical Composition	9- 814
Helminthofauna. Finding of <i>Taenia crassiceps</i> (Zeder, 1402) Rudolphi, 1810 (<i>Cestoda: Taeniata</i>) and <i>Trichinella spiralis</i> (Owen 1875) (<i>Nematoda, Trichocephalata</i>) in Foxes in the Armenian SSR	8- 655
Helminthofauna. Study in Rooks in the Armenian SSR	8- 650
Helminthofauna. <i>Taenia pisiformis</i> (Bloch., 1780) Gmelin, 1793 and <i>T. hydatigena</i> Pallas, 1765 (<i>Cyclophyllidae, Cestoidae</i>). Electron-Microscopic Investigation of Membranes of Oncosphere	8- 645
Henna. Spectrophotometric Determination of Laveon	6- 139
Henna Unprickled, <i>Lawsonia inermis</i> L. Effect of Extracts Obtained from Leaves on the Blooming of Sprouts of Goosefoot Plants (<i>Chenopodium rubrum</i> L.) under Conditions of Open Hydroponics	6- 367
Heparine. Dynamics in the Blood of Sheep in Ontogenesis	8- 723
Herbicides, Diphenamid. Influence on Liver Hydroxylase Activity and Ascorbic Level in Ustne	5- 432
Herbicides (Menuron, Dalapon). Influence of Systemic Use on the Soil Microflora of Fruit Gardens under Conditions of the Armenian SSR Ararat Valley	4- 357
Herbicides, Prometryn. Influence on the Nitrogen Fractions in Cereals	7- 637
Herbicides, Sulphazine. Influence on the Embryogenesis of White Rats	5- 111
Horse-Flies Palearctic (<i>Diptera, Tabanidae</i>). Evolution of Ecological Peculiarities	8- 633
Hydrocortisone. Quantitative Alterations in Rat Liver Chromatin during Its Activation	3-252
Hydroponics Open. Effect of Extracts Obtained from Leaves of Henna Unprickled (<i>Lawsonia inermis</i> L.) on the Blooming of Sprouts of Goosefoot Plants (<i>Chenopodium rubrum</i> L.)	5- 367
Hyperfermentemia. Principles of Mathematical Modelling in the Study of Biological Processes on the Example of Level in Blood Serum	2- 97
Hypothalamus. Change of the Renal Secretory Function in Case of Injection of Acetylcholine into the Supraoptical Nucleus	2- 167
Hypothalamus. Erythropoiesis of Animals-Donors during Stimulation of Preoptic Zone	5- 419
Hypothalamus. Renal Secretory Function in Case of Injection of Salt Solution into the Supraoptical Nucleus	5- 406
Hypothalamus. Secretory Function of Kidneys during the Injection of Atropine into the Supraoptical Nucleus	8- 724
Illness Periodic. Study by the Application of Factor Analysis with the Purpose of Classification	9- 793
Immunotherapy. Use during Complex Treatment of Thigh-Bone Closed Fractures in Experiment	8- 685
Infarction of Myocardium. α -Tocopherol Effect in Combination with Sodium Nucleinate on the Creatine Phosphokinase Activity in Cardiac Muscle of Rabbits	3- 256
Infusoria Less-Eyelashed. Induction of Arginase	2- 165
Infusoria Less-Eyelashed. Kinetic Properties of Arginase Isoenzymes	3- 262
Intoxication of Dichlorbutene. Indices of Lipid Metabolism in Dependence on the Structure of Food Ration	8- 718
Ions of Calcium. Influence on the Kinetics of Osmotic Hemolysis of Human Erythrocytes	3- 213

Ions of Metals Two Valent. Effect on the Processes of Oxidative Desamination of L-Alanine and L-Glutamate in the Cell-Free Extracts of <i>Candida guilliermondii</i> BKM-Y-42 Yeasts	2— 146
Ions of Potassium. Specificities of Accumulation by <i>Serratia marcescens</i>	3— 217
Irradiation Superweak of Green Leaves. Method and Equipment for the Registration	12—1014
Iso citrate Dehydrogenase. Peculiarities of the Influence of α -Oxoglutarate and Succinate on the Activity in Hens	12—1012
Kalanchoe Feathered (<i>Kalanchoe pinnatum</i> (Lam.) S. Kurz.). On the Role of Aerial Roots	6— 457
Kalanchoe, <i>Kalanchoe daigremontianae</i> . Role of Root System in Hormonal Regulation	2— 119
Kidneys. Secretory Functions during the Injection of Atropine into the Supraoptical Nucleus of Hypothalamus	8— 724
Klebsiella, <i>Klebsiella pneumoniae</i> . Plasmid Factors of Pathogenicity	10— 903
Lactate Tissue Changes in the Content under the Influence of the Neurohormone K	9— 800
Lamblia, <i>Lamblia intestinalis</i> . To the Question of Excystation	8— 721
Lipids. Indices of Metabolism during 3,4-Dichlorobutene-1 Intoxication in Dependence on the Structure of Food Ration	8— 719
Lipids. Study of Liquid-Crystal Mesophases in the Lipid-Water Systems and the Influence of Tropoline-Tropomiosine on Them	11— 956
Lymphocytes. Construction of Ray Reaction Model	11— 922
Lymphocytes Human. Cytogenetic Activity of Stabilizers of Latex Polymerization in the Culture	5— 422
Macrophages. Comparative Morphofunctional Characteristics in Various Organs under Conditions of Antigene Stimulation	5— 402
Macrophages. On the Regulating Role in the Immune Answer of the Organism	6— 533
Malate Dehydrogenase. Activity of Hens Brain in Ontogenesis	6— 492
Membrane. $\Delta\mu_{H^+}$ in Different Bacteria	3— 221
Membranes Bilayer Phospholipid. Physico-Chemical Mechanism of Benzokain Action on Electromechanical Stability	3—241
Membranes of Neurone of the Grape Snail. Influence of Ketamine on the Excitability and Antigradient Outcome of Sodium Ions from the Cells	10— 910
Membranes of Neurones of <i>Mallus Helix pomatia</i> . On the Presence of Ubain-Sensitive Muscarine and Ubain-Insensitive Nicotine Cholinoreceptors	2— 178
Membranes of Snail Neurones. Na ⁺ , K ⁺ -Pump as a Regulator of Intracellular Level of Cyclic Nucleotides and the Degree of Phosphorylation	11— 985
Metalcomplexes α -Phenanthroline. Effect on the Activity of Liver Arginase Isoforms	5— 389
Method Allergic. Use during Diagnosis of Rabbits Colibacteriosis	6— 527
Method EXAFS. Investigation of Interaction of Cu(II)-BSA Complexes with Sodium Dodecyl Sulphate	3— 208
Method Spectrophotometric. Determination of Carboxihaemoglobin in the Spots of Dry Blood	1— 80
Method Spectrophotometric. Determination of Lavson in Henna	5— 439
Methods of Amino Acids Analysis. Tendencies in the Development	7— 555
Microevolution Embryogenetic Mechanisms of Variability	10— 847
Microsomes of Liver. Metabolism of Phospholipids after Bilateral Vagotomy of White Rats	5— 354
Mildew, <i>Plasmopara viticola</i> Berl. et de Toni. Inheritance of Resistance of Intraspecies Hybrids of Grapes Depending on the Selection of the Crossing Pairs	1— 71
Mites Tetranychoid, Overfamily <i>Tetranychoides</i> Rick. Ecological Peculiarities in the Armenian SSR	8— 669

Model Hydromechanical of Eye Fixing and Movements, Eyeball as a Swimming Body	2— 165
Model Multimeasure of Ray Reaction of Lymphocytes. Construction, Description of Postradiation Changes	11— 922
Models of Membranes. Study of Liquid—Crystal Mesophases in the Lipid—Water Systems and the Influence of Troponine—Tropomyosine on Them	11— 946
Modelling Biomathematical. Characteristic Peculiarities of Statistical Approach in Modern Biological Investigations	9—735
Modelling Biomathematical. Classification of Objects by Hierarchic Cluster—Analysis in the Space of Initial Anthropometric Signs and Coordinates of Factors of Body Build	9— 791
Modelling Biomathematical. Non—Hierarchic Cluster—Analysis for the Solution of Children Classification Problems on the Basis of Somatometric Signs	9— 744
Modelling Biomathematical. Some Aspects of Automatic Classification within Definite Nosologies	9— 763
Modelling Mathematical. Evaluation of Ecological Reserve of an Ecosystem	6—455
Modelling Mathematical. Principles in the Study of Biological Processes on the Example of the Model of Blood Serum Hyperfermentemia Level	2— 97
Monoethanolamine. Cytogenetic Activity in the Culture of Human Lymphocytes	5— 422
Monoethanolamine. Cytogenetic Effect on <i>Cr. capillaris</i> L.	2— 159
Monoethanolamine. Use for the Extraction of Humus Acids from Soil	11— 947
Moth Codling. Dependence of Sexual Activity and Fertility upon Their Flyingout Dates	8— 716
Moth Codling. Ovicidal Effect of Pesticides	5— 410
Moth Grape—Berry. Ovicidal Effect of Pesticides	5— 410
Moufflon Asiatic (Armenian Moufflon). On the Question of Preservation and Use	8— 658
Moufflon Asiatic (Armenian Moufflon). <i>Ovis (Ovis) orientalis Gmelini Blyth</i> . On the Question of Preservation and Use of Genofond	8— 658
Muscles Skeletal. Peculiarities of Actomyosin Complex Functioning under Various Ionic Strengths of Medium	3— 196
Mutagenesis Chemical. Ethylenimine, Sodium Azide. Comparative Study of the Mutagenic Efficiency	10— 909
Mutagenesis of Microorganisms. Influence of Gibberellic Acid	1— 234
Mutants Auxotroph, <i>Serratia marcescens</i> AMK—P 103. Selection and Study as a Producer of L—Valine	10— 861
Neozon—D. Cytogenetic Effect on <i>Cr. capillaris</i> L.	2— 159
Neurohormone K. Influence on the Arginase Activity of Rats Liver	9— 798
Neurohormone K. Influence on the Content of Piruvate, Lactate and α -Oxoglutarate in the Tissues	9— 800
Nitrozoethylurea. Effect on Wheat	5— 447
Nucleinate of Sodium. Effect in Combination with α -Tocopherol on the Creatine Phosphokinase Activity in Cardiac Muscle of Rabbits during Experimental Myocardial Infarction	3— 236
Nucleotides Adenine. Content in Blood Erythrocytes under the Effect of Exogenous Cerebrosides	5— 393
Nucleotides Cyclic. Na ⁺ , K-Pump as a Regulator of Intracellular Level of Snail Neuronal Membranes	11— 985
Nucleotides Exogenous Cyclic. Role in the Brain	9— 781
Oak Large—Pollen. On the State and Means of Assistance to Natural Reproduction	12— 1017
Oak—Tree Large—Pollen. Daily Dynamics of the Nitrogen Content in the Polar Organs Depending on the Age and the Density of Planting	1— 89

Oncoviruses. DNA as a Factor of the Genome Destabilization	10— 847
Onion. Influence of Various Methods of Storage on the Defeat by Rots and the Quality	6— 540
Oxide of Carbon. Influence of Acute Intoxications on the Content of Carboxhaemoglobin in Various Parts of Bloodcarrying System	7— 635
Oxidase D—Amino Acid. Study of Some Organs of Frog <i>Rana ridibunda</i>	5— 451
Oxidase L—Amino Acid. Some Properties of Frog Liver, Kidneys and Brain	3— 266
Oxidase of D—Amino Acid. Destruction Condition of D—Isomers of Amino Acid Razeemic Mixtures	7— 633
Oxidase of D—Amino Acids. Isolation from Frog Liver and Purification	9— 776
Oxidase of D—Amino Acids. Some Physico—Chemical Peculiarities of the Enzyme from the Frog Liver	11— 938
Oxidases of D—Amino Acids. Activity in <i>Aspergillus niger</i> R—1 under the Effect of Thiol Reagents	5— 373
Oxidation FAD—Dependent. Characteristics in the Liver and Brain Mitochondria of the Rats during Hypofunction of Parathyroid Glands	3— 249
Oxidation NAD—Dependent. Characteristics in the Liver and Brain Mitochondria of the Rats during Hypofunction of Parathyroid Glands	3— 249
Oxoglutarate, α . Peculiarities of the Influence on the Activity of Two Isocitrate Dehydrogenases	12—1012
Oxoglutarate, α . Tissue Changes in the Content under the Influence of the Neurohormone K	9— 800
Pancreonecrosis Experimental. Pathomorphosis under the Influence of Some Preparations	7— 597
Pastures Fodder. Contemporary State of Classification	6— 470
Peach. Some Data on the Biology of New Pest—Falseshield Plum <i>Sphaerolecanium prunastri</i> (Fouse.)	11— 567
Peach, <i>Persica vulgaris</i> Mill. Ultrastructure of Cell Organelles of the Megasporeocyte, Megaspore and Megagametophyte	12—1005
Peripubertate Stage of Development in Girls. Use of Factor Analysis in the Investigation of Growth Processes	1— 82
Pesticides. Ovicidal Effect	5— 410
Pesticides, Desmedylame, Fenmedylame. Action on the Peripheric Blood of Rats	10— 909
Phage—Transposone D3112 <i>Pseudomonas aeruginosa</i> . Dependence of the <i>E. coli</i> Cells Phenotype on the Efficiency of Phage Genome Expression	10— 870
Phenylalkilamines Hallucinogenic. Modelling of Psychoses	10— 689
Phospholipids. Metabolism in Liver Microsomal Fraction of White Rats in the Different Periods after Bilateral Vagotomy	5— 384
Phospholipids. Spectrum of White Rats Liver Mitochondrial Fraction against the Background of Bilateral Subdiaphragmal Vagotomy	6— 487
Physiology of Plants. Physiological Differences of Buds of Some Woody and Bushy Plants in Connection with Their Flowering Intensity	7— 55
Phytocenoses Meadow—Steppe and Alpine. Seasonal Rhythmics in Armenia	6— 482
Phytohormones. Interaction with the Plasma Membranes of Maize Root Cells	6— 497
Phytotherapy of Medieval Armenia. Medicinal Herbs of Hormonal and Antitoxic Activity	7— 624
Pituitrin. Influence on the Morphofunctional State of the Intrazorganic Microcirculatory Flow	1— 54
Piruvate. Tissue Changes in the Content under the Influence of the Neurohormone K	9— 850
Plant of Carrot. Influence of Prometrin on the Content of Nitrogen Fractions	7— 637
Plant of Grape. Resistance to Spring Frosts in Relation to the Regime of Mineral Nutrition	7— 559
Plant of Grape. Vitamin Content in the Berries of Table Varieties	5— 443

Plant of Maize. Interaction of Phytohormones with the Plasma Membranes of Root Cells	6— 437
Plant of Melon. Influence of Presowing Gamma—Irradiation on the Growth and Fertility	12—1018
Plant of Pepper. Ability of Akre Translocation	5— 443
Plant of Pepper. Radiosensitivity of Hybrids and Initial Forms in P_1M_1	5— 145
Plant of Rose. Regulation of the Flowering Dates	5— 419
Plant of Tobacco. Dependence of Accumulation of Nutrition Elements in Dependence on the Method of Fertilizers Administration	11— 937
Plant of Tobacco. Dynamics of Nutrition Elements Accumulation in Dependence on the Method of Fertilizers Administration	12—1016
Plant of Tobacco. Fungi Flora	11— 938
Plant of Tomato. Content of Chemical Elements in Dependence on the Sort Peculiarities	8— 128
Plant of Tomato. Dynamics of Nitrogencontaining Combinations in the Leaves	10— 912
Plant of Tomato. Dynamics of Nitrogen containing Combinations in the Roots	9— 813
Plasmids. Comparison of Genetic Organization of the Plasmids of the P Group Incompatibility	2— 126
Plasmids of Pathogenity <i>Enterobacteriaceae</i> . Phenotypic Manifestations in Some Representatives	4— 333
POL. Peroxide Oxidation of Lipids. Influence of Dihydrocucurbitacin D Diglucoside during Stress in Rats	4— 351
POL. Peroxide Oxidation of Lipids. Influence of <i>Eleuterococcus</i>	7— 593
POL. Peroxide Oxidation of Lipids. Lipoxigenase System in <i>Triticum aestivum</i>	12—1001
Polluters Chemical Industrial. Registration of Self—Arbitrary Abortions by the Method of Interview in Chemical Industry	9— 812
Polluters of Medium Industrial. Estimation of the Outcome of Pregnancy for the Detection of Mutagenity of the Electrolamp Industry Factors	10— 903
Polluters of Medium Industrial. Use of the <i>O. Cline Tradescantia</i> for the Estimation of Mutagenic Activity of Sewage Waters of Rubber Production	10— 834
Polyethyleneglicole (PEG). Model Study of Nucleic Acids Structure Peculiarities in Solutions	4— 303
Polysaccharides <i>E. coli K-12</i> . Suppressing of Oversynthesis by Phage Resistant Mutants in <i>lon</i> Strains	10— 864
Populations of the Armenian SSR (Ararat Region). Evaluation of Genetic Differentiation Level on the Basis of Families Names Frequencies	9— 795
Potential Phosphate (3Gp) in Bacteria. Study in <i>S. marcescens</i>	4— 325
Pressure Arterial Systemic. Mechanisms of Change during Low- and High—Frequency Stimulation of the Limbic Cortex Various Structures	11— 917
Problems of Evolution. Sexual Dimorphism	10— 823
Proteins Muscle. Effect of Cosmic Flight Factors	3— 191
Proteolipids. C—Terminal Amino Acids of Protein from Brain and Some Other Organs of Rat	9— 787
Psychoses. Modelling by Hallucinogenic Phenylalkilamines	10— 889
Purine Nucleotide Phosphorylase. Isolation from Rabbit Kidney and Purification	9— 768
Questions of Evolution. Natural Selection and Trophic Evolution	8— 638
Radiations Laser and Ionizing. Combined Effect on the Survival of <i>Escherichia coli K-12</i> Bacteria Cells of Radiosensitive <i>Pol A1</i> Mutant	3— 200
Radiation Ultraviolet. Efficiency of Use during Incubation of Quail Eggs	1— 76
Radiation Ultraviolet of Duck's Eggs. Influence on the Economically Effective Indices and High Nervous Activity of Ducks in Ontogenesis	7— 602
Rat—Mole of Nehringi. Molting	11— 937

Rays Roentgen. Action on Dormant Seeds of <i>Arabidopsis thaliana</i>	3— 246
Rays Synchrotron. Action on Dormant Seeds of <i>Arabidopsis thaliana</i>	3— 246
Reagents Thiol. Effect on the Activity of D—Amino Acid Oxidases in <i>Aspergillus niger</i> R-1	5— 373
Regulators of Plants Growth. Change of Serotonine Content in Blood Plasma under the Influence of Paraphen	5— 426
Regulators of Plants Growth. Influence of EBF-5 Preparation on the White Rats Embryogenesis	5— 428
Regulators of Plants Growth. Mutagenic Properties of EBF-5 Preparation	5— 427
Regulators of Plants Growth. On the Toxicity of Preparation M-1	5— 429
Regulators of Plants Growth. A-1, Ivin. Comparative Study of the Mutagenic Efficiency	10— 909
Reserve Erebuni. Ecologo-Biological Peculiarities and Spontaneous Mutation Variability of Wheat Wild Types	6— 475
Reserve Erebuni. Floristical Findings	6— 518
Reserve Khosrov. On the Representatives of Herpetofauna	7— 572
Reserve Khosrov. Rare Plant Species for Armenia	7— 612
Retardants. Influence on the Growth and Fruit-Bearing of Juvenile Apple-Trees	3— 264
Retardants. Physiologico-Biological Changes in the Treated Apple Twigs and Leaves	1— 84
Rooks. Fauna of Helminths in the Armenian SSR	8— 650
Salt Amino 2,4-D. Detoxication of Residua Quantities and Their Influence upon Fodder Value	6— 535
Salts of Ammonium. Influence on the Assimilation of D-Isomer of Valine by Yeasts <i>Candida guilliermondii</i> HKM-Y-12	4— 337
Selection of Wheat Hybrids of Triticale with Wheats and the Process of Their Shape-Formation	1— 15
Selection of Wheat. Synthesis of Winter Hexaploid Poloniecumkind Wheat <i>Triticum aestivum</i> L. subsp. <i>Hexapolonicum</i> Aven	11— 952
Semidesert Wormwood—Saline of the Ararat Valley. Fodder Importance of the Vegetation	7— 636
Septicemia Staphylococcal. Action of the Component of Roots <i>Brionia alba</i> Serotonine. Change of Content in Blood Plasma under the Influence of Paraphen	5— 425
Sevan, Lake. On the Significance of Khramulja in the Ecosystem of the Lake	6— 514
Sevan, Lake. Spreading and Species Composition of Ammonificators in the Water and Soils	4— 358
Sheep. Dynamics of Heparine in the Blood in Ontogenesis	8— 723
Soil Meadow—Steppe Chernozem. Biological Activity	7— 622
Soils of Armenia. Peculiarities of Humus of Reclaimed Solonetz—Solonchaks of Ararat Plain	11— 943
Soils of Armenia. Regulation of Enzymatic Activity in Dependence on Their Acidity and Basicity	10— 911
Soils of Armenia. Use of Monoethanolamine for the Extraction of Humus Acids	11— 947
Solonetz—Solonchaks of Ararat Plain. Peculiarities of Humus during Various Degrees of Reclamation	11— 943
Solonetz—Solonchaks Reclaimed of Ararat Plain. Forms of Sulphur and the Activity of Ferments of Sulphur Exchange	1— 34
Speltoids Terraploid. Synthesis	1— 5
Stage Peripubertate of Boys. Periodization of Multiple Statistic Solution	3— 267
Stimulation Antigene. Influence on Morphofunctional Parameters of Macrophages	5— 402
Streptococcus Fical. Sensitivity to Antibiotics	6— 526
Stress. Influence of Dihydrocucurbitacin D Diglucoside on the Lipid Peroxidation in Rat Liver Microsomes during 2,5-Hour Immobilization	4— 351

Sturgeons of Lena (Siberian). Perspectives of the Trade Growth under Conditions of Armenia	12—1009
Succinate, Peculiarities of the Influence on the Activity of Two Isocitrate Dehydrogenases in Hen Tissues	12—1012
Sulphadimexone. Determination of Sensitivity of Lambs Respiratory Ways Microflora	3— 263
Superoxide Dismutase (Cu-, Zn-). Isolation from the Spleen and Purification	9— 773
Synthesis of Enzymes in Microorganisms. Biosynthesis of Beta-Fructofuranosidase in the Process of <i>Aureobasidium pullulans</i> Cultivation in Media with Various Sources of Nitrogen	4— 359
Systems Biological. Main Principle of Formation	1— 22
Toad Green, Ecological Peculiarities of Premountainous and Mountainous Population	8— 680
Tobacco. Spreading of Species of <i>Penicillium Link</i> Genus in Root Sphere of Tobacco Seedlings in Different Tobacco Regions of the Armenian SSR	6— 511
Tocopherol, α . Effect in Combination with Sodium Nucleinate on the Creatine Phosphokinase Activity in Cardiac Muscle of Rabbits during Experimental Myocardial Infarction	3— 256
Tomato. Cytogenetic Effect of Gibberellic Acid on Meiose	5— 370
Tomatoes. Longistylity and Self-Incompatibility	2— 138
Tradescantia. Use of the O2 Clone as an Object of Test for the Estimation of Mutagenic Activity of Sewage Waters of Rubber Production	10— 884
Transaminase of Branched Amino Acids. Isoenzyme Spectrum in the Process of Growth of Yeasts of <i>Candida</i> Genus	4— 294
Tree—Frog. Species Differentiation According to the Signs of Tissue Thermoresistance	5— 442
Tree—Frog. To the Ecology in the Armenian SSR	6— 536
Triethanolamine. Cytogenetic Activity in the Culture of Human Lymphocytes	5— 433
Triethanolamine. Cytogenetic Effect on <i>Cr. capillaris L.</i>	2— 159
Trimerazine. Determination of Sensitivity of Lambs Respiratory Ways Microflora	3— 263
Tropunine—Tropomiosine. Influence on the Liquid—Crystal Mesophases in the Lipid—Water Systems	11— 956
Tslanurate Melamine. Influence on the Chromosome Apparatus of the Experimental Animals	5— 381
Tumourformation. To Physico—Chemical, Structural and System Principles	9— 815
Ultrastructure of Cells of Peach, <i>Persica vulgaris Mill.</i> Megasporeocyte. Megaspore. Megagametophyte	12—1005
Uranyl Nitrate. Genetic Screening on Mice	11— 925
Vagotomy. Influence on the Phospholipid Spectrum of White Rats Liver Mitochondrial Fraction	6— 487
Vagotomy Bilateral. Posteffect on the Metabolism of Phospholipids in Liver Microsomal Fractions of White Rats	5— 384
Variolosis of Bees. Influence of Gamma—Irradiation	3— 262
Virus of Foot—and—Mouth Disease. Preservation on Highmountainous Pastures	11— 989
Water Mineral "Arzni". Influence on the Microelements Content in Organs and Tissues	4— 360
Waters Irrigation Polluted. Influence on the Content of NPK in Plants	6— 478
Wheat. Characteristics of Sorts <i>Triticum durum</i> according to Genes of Hybrid Necrosis	1— 66
Wheat. Diversity of the Hybrid Varieties of the First Generation during Free Pollination and Castration	11— 973

Wheat, Ecologo-Biological Peculiarities and Spontaneous Mutation Variability of Wild Types	6— 475
Wheat, Effect of Nitrozoethylurea and Diazoacetylbutane	5— 417
Wheat, Effect of Seeds Presowing Treatment with Food Dye-Subs on Physiologico-Biological Characteristics of Sprouts	1— 39
Wheat, On Parallel Resynthesis <i>Triticum vulgare</i> (Thunb.) Jakub. (2n=42) and Its New Various Species	6— 520
Wheat, Questions of the Genus Phylogeny	1— 5
Wheat Soft. Hybrid Dwarfness	8— 725
Wheat Soft. Mutability in Generation of Ears of Various Ontogenetic Origin	4— 342
Wheat Soft. On Compound Hybrids with Different Phenotypes of Hybrid Dwarfness	4— 345
Wheat, <i>Triticum aestivum</i> . Lipoxigenase System of the Lipid Peroxidation in Various Sorts	12—1001
Wheat Winter Soft. On the Inheritance and Heredity of Some Quantitative Signs	12—1015
White Fly Greenhouse. Ovicidal Effect of Pesticides	5— 410
Yeasts <i>Candida guilliermondii</i> BKM Y-42. Effect of Two Valency Ions of Metals on the Oxidative Desamination of L-Alanine and L-Glutamate in the Cell-Free Extracts	2— 146
Yeasts <i>Candida guilliermondii</i> BKM Y-42. Influence of the Ammonium Salts on the Assimilation of D-Isomer	4— 337
Yeasts of <i>Candida</i> Genus. Isoenzyme Spectrum of Branched Amino Acids in the Process of Growth	4— 294
