

CONTENTS

Number 1

On the mass-defect of the baryon stars	<i>V. A. Ambartsumian, G. S. Sahakian</i>	7
Tables of functions encountered in the theory of transfer of resonance radiation. I	<i>V. V. Ivanov, V. T. Stcherbakov</i>	22
Tables of functions encountered in the theory of transfer of resonance radiation. II	<i>V. V. Ivanov, V. T. Stcherbakov</i>	31
A detailed photometry and colorimetry of galaxies in the Virgo cluster	<i>B. E. Markarian, E. Y. Hovhannissian, S. N. Arakelian</i>	38
The spectrophotometric investigation of the nucleus of NGC 1068	<i>E. A. Dibay, V. I. Pronik</i>	78
The gradient of the electron temperature on planetary nebulae	<i>G. A. Gurzadian</i>	91
The continuous formation and rates of evolution of stars in stellar associations	<i>L. V. Mirzoyan</i>	109

NOTES

On two blue galaxies	<i>K. A. Sahakian, R. G. Mnatsakanian</i>	125
Two very blue faint objects near D-galaxy	<i>Sahakian K. A.</i>	126

Number 2

On the influence of electron collisions on the intensities of Balmer lines in spectra of the moving envelopes of stars	<i>V. G. Gorbatzky</i>	129
H-functions in the theory of transfer of resonance radiation	<i>V. V. Ivanov, D. I. Naglirner</i>	143
Time-dependence of the probability of diffuse reflection of a photon from one-dimensional inhomogeneous medium	<i>N. B. Yengibarian</i>	167
On light scattering in a one-dimensional non-steady state medium	<i>I. N. Minin</i>	173
The absorption of neutrino for superhigh temperatures	<i>Y. L. Vartanian</i>	183

CONTENTS

493

On one particular case of the equilibrium of a rotating cylindrical configuration in the presence of a magnetic field	<i>R. S. Hovhannisian</i>	193
On the nuclei of barred galaxies	<i>H. M. Thovmassian</i>	197
The distribution of Sculptor-type dwarf systems in Virgo cluster of galaxies I. D. Karachentsev		203
The spectrum of RW Aur in the region λ 3600 — 4800 L. V. Mirzoyan, E. S. Kazarian		213
On the electron temperature and electron concentration of the planetary nebula IC 4997	<i>G. A. Gurzadlan</i>	225
The faint blue stars in the region $\alpha=17^h18^m$, $\delta=+43^\circ30'$ (1950) K. A. Sahakian, R. G. Mnatsakanian		229
On the color-function of the young galactic clusters . . .	<i>O. B. Dlujevskaya</i>	235

NOTES

The variation of the flux density of the radio source Cassiopeia-A V. A. Sanamlun, A. M. Asluntan		247
--	--	-----

Number 3

A world model with the homogeneous magnetic field A. G. Doroshkevitch		255
Singular sphere oscillations	<i>G. A. Lupanov</i>	267
On the theory of the reflection effect in close binary systems . . .	<i>I. N. Minin</i>	275
Polychromatic diffuse reflection of light from an infinitely deep one-dimensional medium	<i>A. G. Nicoghossian</i>	285
On one problem of the radiation non-linear transfer	<i>N. B. Yengibarlan</i>	297
On instability of the Virgo cluster of galaxies	<i>I. D. Karachentsev</i>	303
On the statistical parameters of the radiation of irregular and semiregular variable stars	<i>F. I. Lukatskaja, A. P. Zeltsman</i>	313
The non-steady stellar envelopes containing high-energy electrons G. A. Gurzadlan		319
A spectroscopic study of V 603 Aql (N Aql 1918) E. R. Mustel, A. A. Boyarchuk		337

NOTES

The radio emission of the Galactic nucleus	<i>V. H. Malumian</i>	347
--	-----------------------	-----

Number 4

On the differential depression of Fe I levels and the "red displacement" of spectral lines at pressures up to 1 atmosphere	<i>O. A. Melnikov</i>	351
The electron concentration determination by emission Balmer lines L. N. Kurcchka		369
The determination of variation of the Galaxy rotation velocity at z -direction from the neutral hydrogen line profiles T. A. Agekian, I. V. Petrovskaya, B. I. Fessenko		373

On continuous radiation of SS Cyg	<i>L. V. Mirzoyan, N. L. Kalloghlian</i>	385
Some results of the spectrophotometric investigation of V 444 Cygni <i>N. L. Ivanova, R. Kh. Hovhannissian, R. A. Yepremian</i>		397
On the investigation of the spectrum of RW Aur <i>E. K. Kharadze, R. A. Bartulya</i>		405
The colorimetry of the cometary nebula Anon 6 ^h 04 ^m <i>E. Y. Khachtkian, E. S. Parsamian</i>		417
Correlation between direction of axis of cometary nebulae and the plane of polarization of the surrounding stars	<i>R. A. Vardanian</i>	429
On the possibility of the determination of ages of globular clusters by dynamical method	<i>I. V. Petrovskaya</i>	437
BN Orionis — RW Aurigae-type variable star	<i>B. A. Dragomiretskaja</i>	455
The galaxies with frequent flares of Supernovae	<i>B. V. Kukarkin</i>	465
NOTES		
A note on the frequency of supernovae	<i>V. A. Ambartsumian</i>	473
On shock-waves in gas-dust medium	<i>E. J. Guldatevich, S. A. Kaplan</i>	475
On a method of approximate computation of superdense configuration <i>E. V. Chubarian, M. A. Mnatsakanian</i>		477
Hypothesis of quark stars	<i>D. D. Ivanenko, D. F. Kurdgelaidze</i>	479
