

CONTENTS

Number 1

On the nature of galaxies with ultraviolet continuum. 11. Objects with broad emission lines	<i>B. Ye. Markarian</i>	5
The detailed UBV photometry of spiral galaxy NGC 2276 .	<i>R. K. Shahbaskan</i>	21
The spectroscopic observations of the galaxy Markarian 6 <i>P. Notni, E. Ye. Khachikyan, M. M. Butsllov, G. T. Gevorkyan</i>		39
On the central condensations in E and S0 galaxies	<i>K. A. Sahakyan</i>	51
On the classifications of the central parts of some bright galaxies <i>R. G. Mnatsakanian</i>		57
The search of dwarf spheroidal galaxies	<i>N. Sh. Matlian</i>	63
A possible evidence for the recent production of Markarian galaxies <i>J. Hetdmann, A. T. Kalloglyan</i>		71
Non-coherent scattering. IV. Infinite medium <i>N. B. Yengibaryan, A. G. Nicoghossian</i>		79
The post-Newtonian hydrodynamics in Jordan's theory	<i>A. A. Baranov</i>	95
Oscillations of the plasma in magnetic and gravitational fields <i>A. Z. Dolginov, M. A. Zelikman</i>		99
Structure of horizontal branch and age of globular clusters <i>A. M. Etgenon</i>		107
Genesis and classification of the magnetic stars. 1	<i>E. M. Drobishevsky</i>	119

NOTES

On the physical peculiarity of the nucleus of the galaxy Markarian 6 <i>E. Ye. Khachikyan</i>		139
On the dependence of total mass of stars in an unit volume on the time of their evolution	<i>P. Ye. Zakharova, M. A. Svechnikov</i>	143
On the estimation of the age of cluster .	<i>P. Ye. Zakharova, M. A. Svechnikov</i>	147
On the estimate of mean density of matter in Metagalaxy .	<i>M. A. Arakelyan</i>	151

N u m b e r 2

The spectroscopic investigation of irregular galaxy NGC 520. <i>E. Ye. Khachikian</i>	157
Observations of radio emission of clusters of galaxies . . . <i>H. M. Tovmassian</i>	177
Emission H_2 profiles in the spectra of irregular variable stars <i>G. V. Zajceva, E. A. Kolotilov</i>	185
Energy distribution in the continuous spectrum of Vega and Agena in the region of 2000—3800 Å <i>G. A. Gurzadian, J. B. Ohanian</i>	197
Source-count analysis and the V/V_m test in the study of the evolution of quasi-stellar radio sources <i>V. Yu. Terebizh</i>	209
Linear problem of multilevel atom radiation <i>A. G. Nicoghossian</i>	221
The intermediate state in the superconducting neutron star . . . <i>J. M. Bruk</i>	237
Non-linear theory of development of potential perturbations <i>A. G. Doroshkevitch, V. S. Riabenky, S. P. Shandarin</i>	257
Multiple scattering of resonance radiation in a plane layer and in a sphere <i>S. A. Sabashvili</i>	273
Black hole—the component of massive emission star <i>O. H. Gusel'nov</i>	293
On the relation between phenomena due to the dust and gas components of the interstellar medium <i>A. N. Gerashchenko</i>	301
On thermal waves in stars <i>I. A. Klimishin</i>	307

NOTES

The spectra of Markarian galaxies. VII <i>M. A. Arakelian, E. A. Dibay, V. F. Yst'pov</i>	319
--	-----

N u m b e r 3

The spectra of Markarian galaxies. VIII <i>M. A. Arakelian, E. A. Dibay, V. F. Yest'pov</i>	325
Multiple light scattering in semi-infinite atmospheres <i>V. V. Ivanov, S. A. Sabashvili</i>	333
The calculation of radiation field under the assumption of monochromatic isotropic scattering. I. The green functions <i>D. I. Nagirner</i>	347
The calculation of radiation field under the assumption of monochromatic isotropic scattering. II. Ambartsumian's φ and ψ function and their moments <i>V. M. Loskutov</i>	361
X-ray transition radiation produced on cosmic particles <i>G. G. Bakshian, G. M. Garibian, C. Yang</i>	371
The dynamics of the envelopes of Be-stars. The effect of the magnetic field <i>V. N. Morozov</i>	387

On the application of the tensor virial equation for the determination of the possible figures of the self-gravitating matter in the presence of a magnetic field	<i>R. S. Oganessian, M. G. Abrahamyan</i>	401
On the positronium annihilation in the plasma	<i>S. A. Kaplan, E. B. Kleiman, I. M. Ojringel</i>	417
Evolution sequence: red giant-planetary nebulae-white dwarf	<i>O. H. Guseinov</i>	425
Horizontal branch model and age of globular clusters	<i>A. M. Eigenson</i>	431
NOTES		
Colour of horizontal branch of globular clusters	<i>A. M. Eigenson</i>	443
Polarization of the light of stars, connected with filamentary nebulae	<i>A. V. Kurchakov</i>	447
Observations of the Supernova in NGC 3656	<i>R. K. Shahbazian</i>	450
On the character of ejections in the nuclei of Markarian's galaxies of the Seyfert type	<i>R. A. Vardanian, Yu. K. Melik-Alaverdian</i>	451
The dependence between colours I—K and intrinsic polarization late type stars	<i>R. A. Vardanian, L. Sabadosh</i>	454

N u m b e r 4

Flare stars in Pleiades. IV	<i>V. A. Ambartsumian, L. V. Mirzoyan, E. S. Parsamian, H. S. Chavushian, L. K. Erastova, E. S. Kazarian, G. B. Ohanian, I. I. Yankovitch</i>	461
The investigation of radial velocities of the stars 71 Tau, 49 Ori, 8 Vir and ϵ Aql	<i>G. V. Akhundova, O. H. Guseinov</i>	479
Galaxies with ultraviolet continuum. VI	<i>B. E. Markarian, V. A. Lipovetsky</i>	487
Compact groups of compact galaxies	<i>R. K. Shahbazian</i>	495
The correlation absolute magnitude—color index for the nuclei of normal spirals	<i>S. G. Iskudarian</i>	503
Markarian 474 (NGC 5683)—Seyfert galaxy of type one (Sy I)	<i>C. H. Arp, E. Ye. Khachikian</i>	509
Some applications of the relationship between emissivity and absorptivity of a medium!	<i>V. V. Sobolev</i>	515
Dimensions of the zones of ionized gas around the sources of strong ultraviolet radiation. I—Physics of the problem and principles of calculation	<i>G. C. Pecker</i>	525
The formation and evolution of inhomogeneities in non-linear theory of gravitational instability	<i>A. G. Doroshkevitch, S. F. Shandarin</i>	549
Transfer of rotational momentum in stellar envelopes by magnetic field	<i>V. N. Morozov</i>	567

On the question of possible condensation of π -mesons in the nuclear matter <i>G. P. Alojants, D. M. Sedrakian, E. V. Chubarian</i>	581
Horizontal branch in globular clusters of the galaxy and Magellanic clouds and in Sculptor type dwarf galaxies <i>A. M. Etgen</i>	589
Some observational aspects of the prestellar matter theory <i>Yu. K. Melik-Alaverdian</i>	595
NOTES	
Spectral observations of HD 187399 <i>G. V. Akhundova, N. L. Ivanova, H. I. Novrusova</i>	605
On variability of hydrogen lines in the spectrum of the peculiar star HD 184905 <i>R. N. Kumatgorodskaya, N. M. Chunakova</i>	608
