

CONTENTS

Number 1

A four-colour surface photometry of Markarian galaxies II. Galaxy No. 10 <i>F. Borngen, A. T. Kalloghlian</i>	5
The spectral observations of galaxies of high surface brightness. I. <i>M. A. Arakellian, E. A. Dibay, V. F. Yestpov</i>	15
Some properties of Markarian galaxies <i>R. A. Vardantun, Yu. K. Melik-Aluverdian</i>	21
Analysis of line profiles in the QSO PHL 5200 spectrum <i>S. I. Grachov, V. P. Grinin</i>	33
Four-colour narrow-band photoelectric observations of Wolf-Rayet eclipsing binary CV SER <i>A. M. Cherepashchuk</i>	49
Transfer of line radiation in media with absorption profile varying with depth <i>D. I. Nagtner, K. I. Selyakov</i>	61
The effect of orientation of atoms on absorption lines in a strong magnetic field <i>G. G. Pavlov</i>	77
On properties of cold dense matter with the imbedded overforced magnetic field <i>G. A. Shulman</i>	89
The crystalline cores and Pomeranchuk effect in the neutron stars <i>Yu. M. Bruk</i>	97
The magnetosphere of the barionic stars. I. Symmetrical rotator <i>R. M. Arakian, A. K. Avetisun, G. P. Aloyants, G. S. Sahakian, D. M. Sedrakian, E. V. Chubartan</i>	109
The equilibrium figures of interstellar medium in spheroidal Galaxies <i>M. G. Abrahamian, S. A. Kaplan</i>	121
Non-linear stationary density waves I. Strong waves in homogeneous self-gravitating systems <i>S. N. Nurtdinov</i>	135
On the potential in the theory of the third quadratic integral of motion <i>V. I. Rodionov</i>	145

NOTES

On variability of the flux density of the 3C 380 at 408 MHz V. G. Malumtun, V. A. Sanamtn	153
A search of variability of 3C 120 at 327 MHz V. A. Sanamtn, V. R. Venugopal	155
On the luminosity function of quasi-stellar radio sources V. Yu. Terebizh	157
On the problem of X-ray radiation generated by a fast charge on single atoms and molecules G. M. Gartblan, S. Yung	161

REVIEWS

Magnetic fields in white dwarfs O. S. Shulov	163
