

INDEX OF AUTHORS

<i>Abrahamian M. G., Oganesian R. S.</i> , Interstellar medium in spheroidal galaxies	253
<i>Abrahamian M. G.</i> (see <i>Kaplan S. A.</i>)	263
<i>Akopian A. V., Tsytovich V. N.</i> , Bremsstrahlung instability of relativistic electrons in a plasma	717
<i>Alojants G. P.</i> (see <i>Avaktan R. M.</i>)	323
<i>Antonov V. G., Chernin A. D.</i> , „Hidden masses“ and dynamical evolution of stellar system]	271
<i>Arakellian M. A.</i> , Mean surface brightness and radio emission of galaxies	245
<i>Arakellian M. A.</i> , Emission line intensity dependence of Seyfert galaxies upon colour index	427
<i>Arakellian M. A.</i> , The distribution of mean surface brightnesses of galaxies in Coma cluster	651
<i>Arutyunian E. A.</i> (see <i>Sanamian V. A.</i>)	543
<i>Avaktan R. M., Alojants G. P., Sahakian G. S., Sedrakian D. M.</i> , Concerning the work „Magnitosphere of the barion stars“	328
<i>Bartayr R. A., Kharadze E. K.</i> , On luminosity function of stars	123
<i>Borngen F., Kalloghlian A. T.</i> , A study of the clusters of galaxies Zw Cl 1710.4+6401	5
<i>Borngen F., Kalloghlian A. T., Eghtakian A. G.</i> , UBV-surface photometry of galaxies Markarian 185 and 186	233
<i>Borchkhadze T. M., West R. M.</i> , New emission peculiarities and interacting galaxies of the southern sky	605
<i>Eugrty A. I., Trushevsky A. A.</i> , Some cosmological consequences of hardon matter phase transition at high temperature	361
<i>Chalange D., Divan L., Mirzoyan L. V.</i> , Spectrophotometric studies of non-stable stars. III. The spectrum of FG sagittae in 1968-73	437
<i>Chavushian H. S., Melikian N. D.</i> , Three colour observations of a slow flare in the Orion region	199
<i>Chavushian H. S.</i> (see <i>Mirzoyan L. V.</i>)	205
<i>Chernin A. D.</i> , On the origin of galaxy rotation. II.	69
<i>Chuborian E. V.</i> (see <i>Sarkisian A. V.</i>)	327

<i>Dugkesamunskii R. D.</i> (see <i>Volodin Yu. V.</i>)	617
<i>Dunilov V. M.</i> Late stages of evolution of open stellar clusters.	685
<i>Daniellian E. Kh., Pikiidjian H. V.</i> The field of radiation in a plane parallel atmosphere involving energy sources	275
<i>Divan L.</i> (see <i>Chalonge D.</i>)	437
<i>Eghiklan A. G., Kalloghltan A. T.</i> The luminosity function of the cluster of galaxies A 2634	405
<i>Eghiklan A. G.</i> (see <i>Börngen F.</i>)	233
<i>Eithenson E. G.</i> On the metallicity function of globular clusters	545
<i>Erastova L. K.</i> (see <i>Mirzoyan L. V.</i>)	205
<i>Fomin P. I.</i> (see <i>Krol V. A.</i>)	552
<i>Gershberg R. E.</i> Flare activity of the UV Cet-type stars	553
<i>Gorbatsky V. G.</i> Angular velocity distribution in the star which is a component of close binary system and has a fast rotating core	485
<i>Grachov S. I.</i> Characteristic lengths in radiative transfer problems for moving medium	185
<i>Grigorian L. Sh., Sahakian G. S.</i> The presence of π^- -mesons in heavy atomic nuclei	463
<i>Grigorian L. Sh.</i> (see <i>Sahakian G. S.</i>)	295
<i>Grigorian L. Sh.</i> (see <i>Sahakian G. S.</i>)	669
<i>Grinin V. P., Sobolev V. V.</i> On the theory of flare stars	587
<i>Hagen-Thorn V. A., Voshchinnikov N. V.</i> Polarimetric study the nebula NGC 6618 and neighbouring stars	569
<i>Hajian G. S., Vartanian Yu. L.</i> Nonuniform rotating neutron stars	313
<i>Hakopian A. V., Tsytovich V. N.</i> Bremsstrahlung instability of relativistic electrons in a plasma	717
<i>Imshentk V. S., Klimishin I. A., Otroshenko I. V.</i> On the motion of the thermal waves in polytropic envelopes of stars	103
<i>Ivanov V. V.</i> On the standard problem of the theory of radiation transfer	505
<i>Ivanov V. V., Özlak M. N.</i> Radiative transfer and interactions with conduction and connection	549
<i>Ivanov L. N.</i> On convection in a periodical gravitation field. II.	703
<i>Kalloghltan A. T.</i> (see <i>Börngen F.</i>)	5
<i>Kalloghltan A. T.</i> (see <i>Börngen F.</i>)	233
<i>Kalloghltan A. T.</i> (see <i>Eghiklan A. G.</i>)	405

<i>Kaplun S. A., Oganestan R. S., Abrahamian M. G.</i> Some questions of kinetic theory of differentially rotating interstellar medium in galaxies	263
<i>Kaplan S. A., Lomadze R. D.</i> , Broadening and displacement of emission lines during the nonlinear transfer in turbulent plasma	287
<i>Kaplan S. A., Kuolintch V. V.</i> , Decrement of radioline series with high quantum numbers	523
<i>Kazhdan Ya. M., Lutsky A. Ye.</i> Selfsimilar flow for accretion with a spherical symmetry taking account the pressure gradient	535
<i>Kazarian M. A., Khachikyan E. Ye.</i> Spectrophotometry and morphology of the galaxy DGG 6306	415
<i>Khachikyan E. Ye.</i> (see <i>Kazarian M. A.</i>)	415
<i>Kharadze E. K.</i> (see <i>Bartaya R. A.</i>)	123
<i>Kelman E. B., Ojringel I. M.</i> On the calculation of the population of 2S level of the hydrogen atom in the plasma medium	517
<i>Klimishin I. A.</i> (see <i>Imshentk V. S.</i>)	103
<i>Kogoshvili N. G.</i> Some notes on the diameters and magnitudes of probable compact galaxies	639
<i>Kolotillov E. A.</i> Spectral and photometric observations of the fast irregular variables. II. H ₁ and H ₂ lines in the spectrum of WW Vul, VX Cas and UX Ori	33
<i>Kolotillov E. A., Zaytseva G. V., Shenavrin V. I.</i> Spectral and photometric observations of fast irregular variable. III. VX Cas, UX Ori. BN Ori and WW Vul — results of U, B, V, J, H, K, L photometry	449
<i>Krol V. A., Silch S. A., Fomin P. I.</i> Magnetogasodynamic mechanism of rotation of galaxies with spiral structure	79
<i>Kuolintch</i> (see <i>Kaplan S. A.</i>)	523
<i>Lipovetsky Y. A.</i> (see <i>Markarian B. E.</i>)	225
<i>Lipovetsky Y. A.</i> (see <i>Markarian B. E.</i>)	397
<i>Lomadze R. D.</i> (see <i>Kaplan S. A.</i>)	287
<i>Lutsky A. Ye.</i> (see <i>Kazhdan Ya. M.</i>)	535
<i>Lyubimkov L. S.</i> On the helium abundance variations in the associations and clusters of OB stars	139
<i>Markarian B. E., Lipovetsky Y. A., Stepanian J. A.</i> Galaxies with ultraviolet continuum. X.	225
<i>Markarian B. E., Lipovetsky V. A., Stepanian J. A.</i> Galaxies with ultraviolet continuum. VI.	397
<i>Markarian B. E., Stepanian J. A.</i> On the nature of galaxies with ultraviolet continuum. III. Surface brightness, morphology and activity	627

<i>Melikian N. D.</i> (see <i>Chavushian O. S.</i>)	199
<i>Melikian N. D.</i> (see <i>Mirzoyan L. V.</i>)	205
<i>Mirzoyan L. V.</i> , <i>Chavushian H. S.</i> , <i>Erastova L. K.</i> , <i>Ohanian G. B.</i> , <i>Melikian N. D.</i> , <i>Natsvlishvili R. Sh.</i> , <i>Tavetkov M. K.</i> Flare stars in Pleiades, V.	205
<i>Mirzoyan L. V.</i> (see <i>Chalonge D.</i>)	437
<i>Mirzoyan L. V.</i> , <i>Ohanian G. B.</i> On the possible cyclic recurrence of flare stars in the Pleiades	561
<i>Muradjan R. M.</i> Cosmic numbers and the rotation of Metagalaxy	63
<i>Natsvlishvili R. Sh.</i> (see <i>Mirzoyan L. V.</i>)	205
<i>Nuritdinov S. N.</i> Non-linear running waves of stellar density in model of a homogeneous medium	697
<i>Oganessian R. S.</i> (see <i>Abrahamyan M. G.</i>)	253
<i>Oganessian R. S.</i> (see <i>Kaplan S. A.</i>)	263
<i>Ohanian G. B.</i> (see <i>Mirzoyan L. V.</i>)	205
<i>Ohanian G. B.</i> (see <i>Mirzoyan L. V.</i>)	561
<i>Ojringel I. M.</i> (see <i>Klotman E. B.</i>)	517
<i>Otroshenko I. V.</i> (see <i>Imshenik V. S.</i>)	103
<i>Pavlov G. G.</i> , <i>Yakovlev D. H.</i> Radiative heat transfer in the magnetic field	173
<i>Pikidjan H. V.</i> (see <i>Dantellan E. Kh.</i>)	275
<i>Polnarev A. G.</i> Black holes in the quasi-isotropic Tolman solution	375
<i>Pronik V. I.</i> Gaseous envelopes of Seyfert nuclei	51
<i>Rudolph R.</i> (see <i>Sadrakyan D. M.</i>)	153
<i>Ruzmaikin A. A.</i> Anisotropic cosmological solutions in the theory with quadratic invariants	345
<i>Ruzmaikin A. A.</i> , <i>Sokolov D. D.</i> The nonhomogeneous large scale magnetic field and the global structure of the Universe	95
<i>Sahakian G. S.</i> , <i>Grigorian L. Sh.</i> Pionization of the degenerate matter	295
<i>Sahakian G. S.</i> , <i>Grigorian L. Sh.</i> Superdense degenerate plasma	669
<i>Sahakian G. S.</i> (see <i>Avakian R. M.</i>)	323
<i>Sahakian G. S.</i> (see <i>Grigorian L. Sh.</i>)	463
<i>Sanamyan V. A.</i> , <i>Arutyunyan E. A.</i> On distribution of compact groups of compact galaxies and radiosources	543
<i>Sarkisyan A. V.</i> , <i>Chubartan E. V.</i> Rotating relativistic polytrops	327

<i>Sedrakian D. M., Shahabassian K. M., Rudolf R.</i> Inertial mechanism of the magnetic field generation in pulsars	153
<i>Sedrakian D. M.</i> (see <i>Avakian R. M.</i>)	323
<i>Sekerzitski V. S., Shul'man G. A.</i> On the stable state of cold matter with infrossed magnetic field by densities lesser nuclear	473
<i>Sekerzitski V. S.</i> (see <i>Sul'man G. A.</i>)	165
<i>Shahabassian K. M.</i> (see <i>Sedrakian D. M.</i>)	153
<i>Shaposhnikov V. E.</i> On polarisation of sources of thermal radiation	385
<i>Shchekinov Yu. A.</i> On the origin of high-velocity HI clouds	711
<i>Shenavrin V. I.</i> (see <i>Kolottlov E. A.</i>)	449
<i>Shul'man G. A.</i> Kinetics of neutronization in superdense matter with infrossed magnetic field	657
<i>Shul'man G. A., Sekerzitski V. S.</i> On the removal of the degeneracy and the approximation of the ideal electron gas in the cold dense star with frozen magnetic field	165
<i>Shul'man G. A.</i> (see <i>Sekerzitski V. S.</i>)	473
<i>Silich S. A.</i> (see <i>Krol V. A.</i>)	79
<i>Sobolev V. V.</i> (see <i>Grinin V. P.</i>)	587
<i>Sokolov D. D.</i> (see <i>Ruzmatkin A. A.</i>)	95
<i>Stepanian J. A.</i> (see <i>Markarian B. E.</i>)	225
<i>Stepanian J. A.</i> (see <i>Markarian B. E.</i>)	397
<i>Stepanian J. A.</i> (see <i>Markarian B. E.</i>)	627
<i>Suvorov A. L.</i> (see <i>Yelenski Ya. S.</i>)	731
<i>Toumassian H. M.</i> On the origin of stellar clusters	131
<i>Trushchinsky A. A.</i> (see <i>Bugrly A. I.</i>)	361
<i>Tsvetanov Z. I., Yankulova I. M.</i> The optical outbursts in Seyfert galaxy NGC 1275	21
<i>Tsvetkov M. K.</i> (see <i>Mirzoyan L. V.</i>)	205
<i>Tsitovich V. N.</i> (see <i>Hakopian A. V.</i>)	717
<i>Usov V. V.</i> On the effect of the magnetic field on the pulsation stability of rapidly rotating supermassive stars	117
<i>Vartanian Yu. L.</i> (see <i>Hajian G. S.</i>)	313
<i>Vednich V. G.</i> The broadening of spectral lines by electron scattering. II. The pure absorption in line	493

<i>Volodin Yu. V., Dagkesamanskii R. D.</i> The Andromeda nebula radio emission at 102.5 MHz	617
<i>Voshchinnikov N. V.</i> (see <i>Hagen-Thorn V. A.</i>)	569
<i>West R. M.</i> (see <i>Borchadze T. M.</i>)	605
<i>Yakovlev D. A.</i> (see <i>Pavlov G. G.</i>)	173
<i>Yankulova I. M.</i> (see <i>Tsvetanov Z. I.</i>)	21
<i>Yelenskii Ya. S., Suvorov A. L.</i> Mechanism of "surviving" of the cosmic relati- vistic specks of dust	731
<i>Zajtseva G. V.</i> (see <i>Kolotilov E. A.</i>)	449
