

## Contents

<b>L. Haykazyan</b> The degree of unsolvability of the completion semantics for general logic programs	7
<b>R. Kamalian and P. Petrosyan</b> A note on interval edge-colorings of graphs	13
<b>A. Gevorkyan and H. Abajyan</b> Classical spin glasses with consideration of relaxation effects	17
<b>L. Tarumyan</b> Analysis of characteristics for cyclic business processes	28
<b>A. Sahakyan</b> Digital mammogram segmentation and abnormal masses detection system	41
<b>E. Piliposyan</b> A note on maximum weight independent set in outer-rectangle graphs	51
<b>M. Alizadeh</b> Computation of the complexity of some recursive constructed normal polynomials	57
<b>I-Shayn Hwang and D. Beybutyan</b> Designing a new framework for the patient affected with heart problem	63
<b>A. Martirosyan</b> New representation for non ruin probability of insurance model with rent contracts and its application for assessment of critical risks	70
<b>N. Afshar, E. Haroutunian and M. Haroutunian</b> Random coding bound for secrecy E-capacity region of the broadcast channel with two confidential messages	79
<b>H. Bolibekyan and I. Zaslavsky</b> On some kinds of constructive fuzzy logic	91
<b>H. Hayrapetyan</b> A processing algorithm for separation of cardiac and pulmonic activities reflected in microwave doppler spectra	99
<b>A. Khachatryan</b> Necessary conditions for optimal permissible placement by the height of the transitive directed tree with one root	104
<b>V. Khachatryan</b> Off-line signature verification and recognition	115
<b>V. Sahakyan and S. Petrosyan</b> Workload management for Grid environment with the restriction on the waiting time	121
<b>D. Asatryan, V. Kurkchyan and M. Bagramyan</b> A method for quality assessment of image resizing algorithms	128
<b>R. Vardanyan</b> Interactive multimedia publication system for building web services	133
<b>A. Gevorkyan and M. Nalbandyan</b> Numerical solution of 1D Schrödinger equation at adiabatically changing potential	140
