

CONTENTS

Number 1

On the origin of tightly wound spiral features in galactic nuclei	<i>P. Pismis, E. Moreno</i>	7
The second Byurakan spectral sky survey. II. The results of the area centred on $\alpha = 09^h50^m$, $\delta = +55^\circ00'$	<i>B. E. Markarian, J. A. Stepanian</i>	21
Spectrophotometry and morphology of the galaxies with UV-excess. V	<i>M. A. Kazarian</i>	35
The UBV photometry of two physical systems of galaxies with UV excess	<i>V. S. Tamazian</i>	43
Superassociations in spiral galaxies with UV-excess. II	<i>A. R. Petrossian, K. A. Sahakian, E. Ye. Khachikian</i>	51
On the thermal energy sources for intergalactic gas in clusters of galaxies	<i>V. G. Gorbatsky</i>	61
Possible existence of two populations of quasi-stellar objects (QSO)	<i>B. V. Komberg</i>	73
The atmospheres of southern supergiants α Lep and ϵ Car	<i>A. A. Bogarchuk, L. S. Lyubimkov</i>	85
Radial velocities of CH Cygni in 1981	<i>T. Tomov, L. Luud</i>	99
Spectrophotometric study of OB-stars in the region of the association Cep OB 2	<i>A. T. Garibjanian</i>	107
Some questions concerning the formation and structure of Herbig-Haro objects	<i>A. L. Gyalbudaghian</i>	115
Integral relations and asymptotic formulae of radiative transfer theory	<i>V. V. Sobolev</i>	123
The Green's functions for equation of radiative transfer in an infinite homogeneous medium with a radial distribution of the sources	<i>A. K. Kolesov</i>	133
The scattering of space-homogeneous isotropic radiation on cold electron gas	<i>D. I. Nagtner</i>	149
Langmuir solution propagated in the relativistic plasma at an angle to the external magnetic field	<i>G. I. Melikidze, A. D. Pataraya</i>	157

On the influence of magnetic dipoles orientation onto accretion rate in close binary systems	<i>I. L. Andronov</i>	165
--	-----------------------	-----

NOTES

On the morphology of two systems of galaxies	<i>R. K. Shahbaztan, A. I. Shapovalova</i>	179
Investigation of galaxies of high surface brightness at 3.95 GHz	<i>V. G. Malumian</i>	182
Radiogalaxies with broad and narrow emission lines	<i>R. A. Kandallan</i>	186
Spectral classifications of emission-line stars	<i>G. Veltn</i>	193
Polarimetric observations of μ Cep	<i>M. A. Yeritsian</i>	195
Internal structure of the diffuse nebula S 152	<i>R. A. Sarkisian</i>	199
On magnetic properties of pion condensate in neutron stars	<i>G. S. Sahakian, L. Sh. Grigorian</i>	203
Characteristic masses in dynamics of gravitating gas	<i>D. I. Barausov, A. D. Chernin</i>	208

Number 2

The spectra of galaxies of the second Byurakan survey. I	<i>B. E. Markarian, V. A. Lipovetsky, J. A. Stepanian</i>	213
Relativistic electron-photon showers in the nuclei of active galaxies and quasars	<i>F. A. Aharonian, V. V. Vardanian, V. G. Kirtillov-Ugryumov</i>	223
Periods, amplitudes and luminosities of red supergiants	<i>H. V. Abrahamian</i>	239.
The distributions of the OB-stars and absorbing matter in the region around P Cyg	<i>A. T. Garibjanian, K. G. Gasparian, R. Ch. Hovhannessian</i>	245
An analysis of light curves of fuor V 1057 Cyg	<i>E. N. Kopatskaya</i>	263
On the connection between Herbig-Haro objects and the flare stars in the solar neighbourhood	<i>A. L. Ggulbudagtan</i>	277
Mass determination for globular clusters on the basis of proper motions	<i>S. Ninkovich</i>	283
The electromagnetic instabilities of the relativistic neutral beam with the inhomogeneous velocity profile in the magnetospheres of pulsars	<i>T. D. Kaladze, P. G. Mamradze</i>	289
On the single scattering approximation in the problem of transfer of polarized radiation	<i>V. M. Loskutov, J. A. Freilants</i>	295
Radiation field in an infinite atmosphere	<i>J. M. Dlugach, E. G. Yanovitskiy</i>	303
The equilibrium states of degenerate magnetized electron-nuclear plasma	<i>S. S. Lipovetsky, V. S. Serkerjitsky</i>	315

Numerical modelling of gas dynamic processes in shells of neutron stars considering anomalies in the equation of state	<i>B. G. Mukanova</i>	321
The influence of an effect of rotation on the evolution of triple systems G. P. Anosova, D. I. Bertov, V. V. Orlov		327
The oscillator strengths and the transition probabilities of pseudo-resonance lines	<i>A. A. Egikyan</i>	341

NOTES

Binary quasi-stellar object Q 0957 + 561A, B — a close pair of galaxies B. V. Kornberg		351
Polarimetric observations of carbon stars .	<i>M. A. Yeritsian, S. E. Nerassian</i>	325
Neutrino scattering on electrons in a strong magnetic field and the influence of this process on the energy loss of neutron stars . .	<i>V. P. Tsvetkov</i>	359

REVIEWS

Formation of the emission spectra in the moving media . .	<i>V. P. Grtln</i>	355
---	--------------------	-----

Number 3

The shell spectrum of CH Cygni since the brightening in the fall of 1981. L. Luud, T. Tomov		419
On the parameters of atmospheres of chemically peculiar γ and γ^2 CVn V. V. Leushin, L. I. Snezhko, V. V. Sokolov		429
The distributions of the absorbing matter and OB stars in the region of association Per OB1	<i>A. T. Garibjantian</i>	437
Light variations of WW Vul and their interpretation G. V. Zaytseva, P. F. Chuganov		447
Balmer lines in the spectrum of P Cygni dilemma of the interpretation of variability	<i>N. Markova, I. Kolka</i>	465
Evolutionary increasing of nitrogen abundance in atmospheres of early B-stars L. S. Lyubimkov		475
The colorimetry of diffuse nebulae S 156, S 157A, S 158, NGC 7635 E. S. Parsamian, V. M. Petrosian		495
Carbon abundances in planetary nebula	<i>A. T. Kholtygin</i>	503
The second Byurakan spectral sky survey. III B. E. Markarian, J. A. Stepanian		513
Spectral observations of Markarian galaxies. IV E. K. Denisguk, V. A. Lipovetsky		525
Evolutionary stage and extended radio structures of active galactic nuclei I. I. Shevchenko		539

The stability of elliptical stellar disks. I. Balanced disks	<i>G. S. Bisnovatyi-Kogan</i>	547
On the nonlinear theory of the generation of radiation in a pulsar plasma	<i>A. B. Michtalovskii, G. I. Suramlishvili</i>	565
The waves in homogeneous nonmagnetized electron-nuclear plasma	<i>G. P. Alojants, A. A. Sahakian</i>	571
Slow rotation in the bimetric theory of gravitation	<i>E. V. Chubarian, A. V. Sarkisyan</i>	585
Low frequency radiation from solitary magnetic sound waves in inhomogeneous magnetic field	<i>R. G. Jangirian, F. A. Kostantian</i>	599
Application of invariance principle to problems of gamma-radiation transfer in crystals	<i>A. R. Mkrtchian, R. H. Gabrielyan</i>	607
Phenomenological approach to the theory of gravitational vacuum	<i>L. Sh. Grigorian, G. S. Sahakian</i>	615

NOTES

On the objects looking like Herbig-Haro objects	<i>A. L. Gyulbudaghian</i>	631
---	----------------------------	-----
