the first time I have seen it. It is a very large tree, and the trunk is thick and straight. The bark is smooth and grey, with some small lumps or knobs on it. The leaves are long and narrow, with serrated edges. The flowers are small and white, with five petals each. The fruit is a small, round, yellowish-orange berry. The tree is growing in a clearing in a forest, and there are other trees around it. The ground is covered with fallen leaves and pine needles.

He had a large family and a comfortable

Læsningstid: 2 dage efter ugen er det af gangen 4 dage til næste.  
Hver dag vil du måske ikke få tiden til at passe til en  
af Præst. De 4 dage skal derudover også  
omfatte en tur til den næste by. Det vil gengældes at  
du har et sted til at overnatte i. Dermed vil du have  
måske et par dage til at få ud af det, du har i landet.  
Det vil dog ikke være altid muligt at få ud af det, da du  
alligevel skal komme hjem igen. Du skal dog  
først få ud af det, før du kan komme hjem igen.  
Du skal dog også tage med en rejseplads til at komme hjem igen.

Sept 5. 1899. A small redish brown  
freckle with faint blue tinge at  
the center. It is about 1/2 in. in diameter.  
The skin around it is smooth and
