CONTENTS

The distribution of hot stars and absorbing matter in Carina <i>H. M. Tovmassian, R. Kh. Hovhannessian, R. A. Epremian, D. Huguenin</i>	165
Spectrophotometric investigation of faint Carbon stars at high galactic latitudes. II. Spectrophotometric data for 21 Carbon stars <i>H. V. Abrahamian, K. S. Gigoyan</i>	181
Spectral variations of P Cyg <i>G. L. Israellian, A. G. Ntkoghossian</i>	189
Interstellar absorption in the galactic plane <i>R. A. Vardanian, V. V. Hambartian, A. V. Poghosian</i>	195
Polarimetric observations of the FBS blue stellar objects. II. <i>M. H. Eritsian, A. M. Mickaelian</i>	203
Spectrophotometry and morphology of the galaxies with UV excess. IX. <i>M. A. Kazarian, E. S. Kazarian</i>	211
Spectrophotometry of one Seyfert type galaxy <i>M. A. Kazarian</i>	217
On the study of isotropic scattering in the plane slab. The method of separated linear integral equations <i>E. Kh. Daniellian</i>	225
Spherical—symmetric solutions of GR are partial solutions of BSTT <i>A. A. Saharian</i>	245
The stellar kinematics in Kovalsky-Kapteyn figures. III <i>G. B. Anisimova</i>	251
 NOTES	
Radial velocities of components of Trapezium type multiple stellar systems. I <i>R. Sh. Djavakhishvili, M. V. Pavlov, G. N. Salukvadze</i>	273
 REVIEWS	
Flare stars and evolution of red dwarf stars <i>L. V. Mtrzyon</i>	277
