

This image shows a vertical strip of aged, textured paper or parchment. The material is light beige or tan in color, with a visible fibrous texture. It is heavily marked with numerous small, brownish spots, likely foxing or water damage, which are distributed unevenly across the surface. The strip is narrow and appears to be a detail or a section of a larger document, possibly a book binding or a page edge. The right edge of the strip is slightly irregular and shows some darker, possibly stained, material underneath.
