

A close-up photograph of the fore-edge of a book. The image shows the binding material, which appears to be a dark, textured cloth or leather, and the edges of the pages, which are a light, aged color. The book is positioned horizontally, and the focus is sharp on the binding and the edges of the pages.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The left edge of the page is bound into a dark, possibly black, inner cover material. There is no text or other markings on the page.
