

CONTENTS

Agricultural Engineering

Hayk Asatryan	Crop Disease Detection Using MobileNetV3-Small Convolutional Neural Networks (CNNs) to Support Armenian Agriculture	105
Arshaluys Tarverdyan, Artur Altunyan, Albert Grigoryan	Justification of the Stability Parameters for the Turning Motion of a Horticultural Robotic Platform	112

Agricultural Economics and Agribusiness

Lusine Tspnetsyan	Assessment of the Quantitative Impact of the Russian Ruble Exchange Rate on Particular Indicators Characterizing the Development of the RA Agriculture	120
-------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------	-----

Agronomy and Agroecology

Levon Achemyan, Varsenik Mirzoyan, Nelli Petrosyan	Dynamics of Karate Zeon and Calypso Detoxification in Carrot Roots and their Impact on Crop Quality	126
Zaruhy Vardanyan, Yugho Mirzoyan	<i>Rubus Vulgaris Weihe & Nees</i> and <i>Rubus Idaeus L.</i> in the Wild and in Agroecosystems of Lori Region	132

Veterinary Science and Animal Breeding

Zhanna Melkonyan,
Albert Vardanyan,
Liana Grigoryan

Treatment of Acute Orchitis in Breeding Bulls

138

Food Science and Technology

Artak Gabrielyan,
Nune Simonyan,
Albert Nersisyan

Exploring the Untapped Winemaking Potential of the Grape Variety Nrneni
(Haghtanaki Quyr)

143

Karen Kazumyan,
Bella Grigoryan,
Artem Ohanyan,
Armen Solomonyan

Comparative Study of the Mechanical Composition and Physicochemical
Parameters of the “Areni Sev” Grape Variety and its Clones

149

David Pipoyan,
Meline Beglaryan

Dietary Exposure Assessment of Potentially Toxic Elements in Armenian
Honey

154

David Pipoyan,
Meline Beglaryan,
Taron Kareyan,
Vigen Urutyan

Assessment of Dietary Fiber Intake from Fruit and Vegetable Consumption:
Case Study of Yerevan, Armenia

160
