The Condition of the Historical Armenian Monuments in Western Armenia  
(occupied by Turkey) since 1915

The film exposes the policy of the Turkish authorities on the annihilation of the Armenian historical monuments of Western Armenia. In the aftermath of their actions, a peculiar cultural heritage, forming part of world civilization, has been irrevocably destroyed. By exercising this criminal policy, Turkey attempts to get rid of thousands of Armenian monuments of material culture which reveal the historical reality. The film contains materials of great importance and shows the present-day state of the Armenian monuments in Western Armenia as compared to their condition several decades ago.

Script by Samvel Karapetyan

Directed by Trdat Karapetyan and Tiran Karapetyan

Music by Aidin Davoudi
